Coffee is called “cà phê” in Vietnam. It's usually a drip coffee where water is poured over ground coffee and as it 'drips' slowly in the glass, it soaks up the essence and flavours from the Vietnamese Robusta beans.

Vietnamese Coffee is popular around the world for its bold bitter flavour, strong taste and high caffeine content. Now, you can experience the same great taste of Vietnamese Coffee in India with Newtreo's ready-to-drink coffee.
