Why the brand name Go Nuts !!

Because we literally wanted our customers to Go Nuts !! about the quality and lip smacking taste of our carefully curated gourmet nuts. Ashish's initial thought was to enter the retail market with these nutritive snacks, but not wanting to compromise on quality he was unable to sell them at competitive price points. This prompted him to try another untapped market; the hospitality industry.

Go Nuts now has a scrumptious range of munchies, that includes health mixes, party mixes, trail mixes, the classics – salted and roasted and some surprise mixes thrown in created especially for you! Over the years, the company has built a strong presence in the hospitality industry, catering to almost 250 hotels pan-India with its exclusive collection of mini bar nuts. After creating a name for itself as a sought-after brand for wedding and corporate gifting solutions with an entire collection of attractively packaged cans, pouches, and premium glass bottles, Go Nuts is ready to come to your doorstep via e-commerce and retail. The company takes the utmost care to process and package your favorite nuts safely and hygienically so that you get pure deliciousness in every bite.

What makes us different?

- Signature health mixes
- Proprietary gourmet flavours
- Environment friendly glass bottle packaging
- Handpicked, premium quality
- Partners with leading luxury hotels across India for over a decade
