PERFORMANCE
WARRANTY

 asianpaints

Every home has a story to tell, a tale to share. Every story deserves to be told exquisitely and impeccably, with its ragged edges smoothed out. And nothing helps narrate these stories better than Royale Aspira.

Miles ahead of all its contemporaries in terms of technological advancements, Royale Aspira is truly in a class of its own. It's the quintessential backdrop for creating memories that last a lifetime. The gold standard for interior emulsions, Royale Aspira comes with a host of international certifications.

A glimpse of the pioneering efforts by Asian Paints to make the world a better world can further be seen in the attention paid to the product's packaging. We take responsibility for the environment, which is why the packaging of Royale Aspira is crafted from 20% recycled plastic.

Furthermore, the can of Royale Aspira is kissed with gold, because the Gold standard in paints deserves nothing less. A niche above the rest, the claim of Royale Aspira's excellence comes backed with evidence, as the conscientious buyer will discover in their quest for the perfect finish. That search ends here.

ADVANTAGE

Five-year warranty

Royale Aspira waltzes along with a 5 year performance warranty. You read that right: a five year warranty. A first of its kind, this warranty covers product performance against fading, flaking, peeling and fungus growth.

Perfect Finish

As one of the most technologically advanced emulsions in the world, Royale Aspira seals the deal with a high-shine finish. This helps bring out a soothing richness in the colour of your walls.

Teflon surface protector

Not only does this toughen up your walls, it also builds up resistance against tough stains. Teflon surface protector is also designed to improve the durability of your home. In the simplest of scenes, think of it as a fortifying energy drink for your walls.

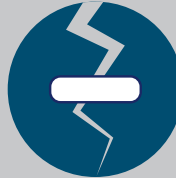

Remarkable Water Beading Technology

Imitating the droplets that gently ski down a green lotus leaf, every drop of water that touches your Royale Aspira walls, will gently roll off as a single and clear pearl owing to its distinctive Water Beading Technology, which envelops your walls in a high hydrophobic blanket. With this technology, Royale Aspira offers unparalleled washability and cleanability.

Anti-microbial formula

Not only is Royale Aspira meant to give you a stellar finish feel, it's also meant to keep you safer and healthier. Internationally certified for its anti-bacterial and anti-fungal properties, Royale Aspira provides higher standards of hygiene. The best doesn't compromise.

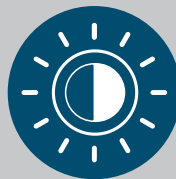

Bridging cracks

As the years pass, cracks appear through all bonds, weak or strong. But Royale Aspira seeks to keep in check these unavoidable fault lines caused by the vagaries of time. With a film that can stretch up to 400% elongation, Royale Aspira has the ability to bridge hairline cracks.

Resistance against flame-spread

With the remarkable distinction of being an emulsion with the slowest flame spread rate, Royale Aspira aims to protect the walls of your house by resisting flames in case of a fire.

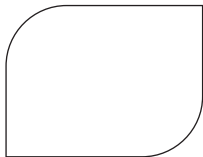

Lumina Bright Technology

To make your rooms stand out, Royale Aspira comes with Lumina Bright Technology. It brightens up your walls and your mood with it! The vibrancy that it imparts to your walls will make for an archetypical setting for your memories.

Pioneer in Environmental Responsibility

Asian Paints has been a pioneer when it comes to environmental responsibility. Normally, paints release VOCs (Volatile Organic Compounds) into the air after application. It was our aim to minimize the VOC content in the paint. With Royale Aspira, we have gone further, by having it conform to the toughest international standards of human health and safety.

Royale Aspira is the only paint and in fact, the only product in India* to be certified by Green Seal™, an international non-profit body certifying products for their

To achieve this notable feat, we've changed a lot in Royale Aspira:

1. VOC levels are amongst the lowest in our range of paints
2. The packaging is made from 20% recycled plastic, thereby reducing plastic consumption. This gives the Royale Aspira can its distinctive gray background
3. Certain raw materials that cause harm to humans are removed from the formulation (APEOs, CMRs - Carcinogenic mutagenic reproductive toxins)

Royale Aspira meets Green Seal™ Standard GS-11 based on effective performance, minimized/recycled packaging, and protective limits on VOCs and human toxicity. GreenSeal.org.

*As of January 2017

DIRECTIONS FOR USE

Sand the surface with Sand Paper No. 180 to remove loose particles or dirt and wipe clean.

Apply a coat of Royale Wall Basecoat and allow drying for 4- 6 hours.

Smoothen the surface with coats of Asian Paints TruCare Acrylic Wall Putty. Allow drying for 4-6 hours. Sand the surface with Sand Paper No. 180 and wipe clean.

Apply a coat of Royale Wall Basecoat for 4-6 hours. Sand the surface with Sand Paper No. 320 or 400 and wipe clean.

Thin 1 litre of Royale Aspira with 400-500ml of water.

Using Royale Roller, apply 2-3 coats of Royale Aspira at intervals of 4-6 hours. Provide adequate ventilation for application and drying. 1 litre of Royale Aspira will provide approximately 140-160 sq. feet of coverage for 2 coats.

Please Note

- Left-Over Paint Disposal: Left-over paint/drums should not be disposed in soil / drains. Consumers should consult a local recycling agency for proper disposal of paint/drums.

Maintenance

- A freshly painted surface needs minimum 2 weeks for proper film formation. Do not damage or stain the surface in this period.
- To remove stains, apply mild soap solution and wipe clean. Remove within 24 hours to ensure best results.

For best results, use:

Royale Wall Basecoat

Asian Paints Royale Roller
