

MTPi

FERTILIZERS IN FOCUS

MTPi Products Pvt. Ltd. - Your One Stop Solution For Mass Transfer Equipment

Talcher Fertilizers

We are currently executing a comprehensive Mass Transfer Solution for the Talcher Fertilizer project. This includes **Random Packings, Structured Packings, Internals, Trays, Mist Eliminators** in SS 316, SS 321, SS 304, and Alloy 825 materials. The project includes 27 towers for the Rectisol technology based Coal Gasification Unit as well as the Ammonia-Urea Plant.

MTPi Products Pvt Ltd successfully supplied **Random Packings, Internals** and **Trays** for the Ammonia Plant at HURL's Sindri, Barauni, and Gorakhpur facilities. This project was carried out in collaboration with M/s. Toyo Engineering, serving as the EPC contractor.

We have supplied **Random Packings** and **Internals** for the Ramagundam Fertilizer project, which involved Haldor Topsoe as the process licensor and M/s. EIL as the owner and EPC contractor. Our contribution to this project has been instrumental in its success.

MTPi Products Pvt Ltd is honored to have collaborated with leading fertilizer manufacturers both in India and abroad. Our other esteemed clients include **M/s. NFL, M/s Deepak Fertilizer, M/s. RCF Ltd, M/s. Kribhco, and M/s. QAFCO**. These partnerships highlight our commitment to delivering outstanding solutions and building long-lasting relationships within the industry.

At MTPi Products Pvt Ltd, we understand the unique challenges faced by the fertilizer sector and are dedicated to providing comprehensive solutions that meet your specific requirements. We have the expertise and capabilities to deliver top quality products tailored to your needs.
