

NUOS

Home Automation

IN THIS MOMENT, I RULE.

EXPERIENCE A BRAND NEW WAY OF LIFE.

Changing times bring in the new and the futuristic. Let your home become an epitome of this change in lifestyle and luxury. Your soaring ambitions reflect in every aspect of your life and your home, your haven, should not be an exception. It's time to seamlessly integrate your life with a new lifestyle, a new ethos.

It's Simple. It's Precise. It's Innovative.

INTELLIGENT LIGHTING

See things in a new light everyday.

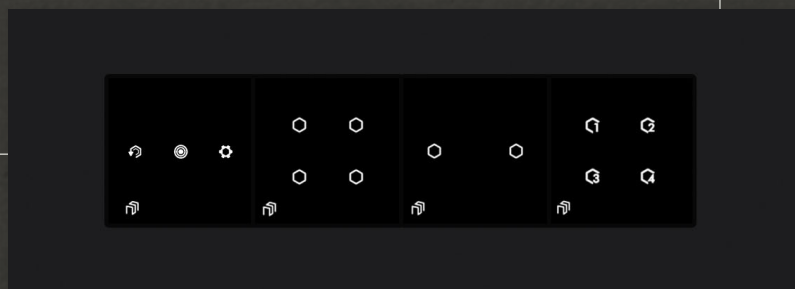

PRODUCT RANGE

GATEWAY | SMART SWITCHES - 4 RELAY ON/OFF | TRIAC | 0-10
ANALOG | TRAILING EDGE | 2 RELAY ON/OFF | 2WAY ON/OFF | DALI |
DMX | 1 RELAY 16 AMPS | SCENE CONTROLLER

Let your home reflect your mood - just tell Alexa or google home to turn on your favourite mood or simply create an entire ambience with a single touch with our beautiful and elegant smart switches.

Whether its dimming your cove lights or setting your favourite mix of red, green and blue, NUOS is there for you.

Let NUOS spoil you by turning lights on or off automatically as per your requirements.

INDULGENT COMFORT AND CONVENIENCE

Feel comfortable in your own skin.

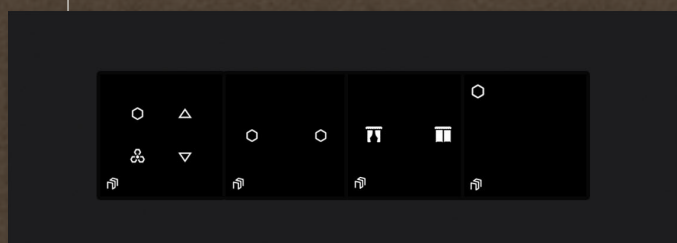

PRODUCT RANGE

1 LIGHT 1 FAN SMART SWITCH | DOOR LOCK CONTROL | CURTAIN
CONTROL | IR BLASTER | ALEXA & GOOGLE HOME

Did we mention that you could schedule your coffee maker or any other appliances to match your busy schedule?

Or turning on the AC at your comfortable temperature and TV to your favourite channel with just one click of a button - Or better just tell Alexa or Google Home to do it for you sitting right from the comfort of your bad boy recliner! There's more-you can now open or close your curtains at the click of a button.

Have a habit of forgetting your keys - worry no more! Just unlock your door remotely, sitting right in the middle of your board meeting!

HOME SECURITY & SAFETY

When nothing is sure,
everything is possible.

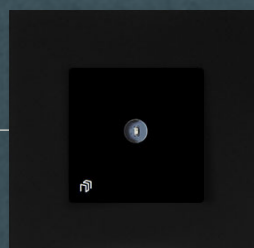

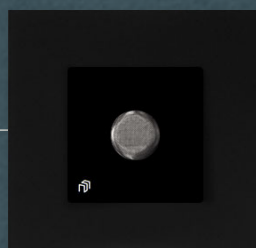

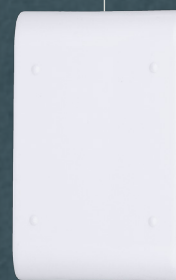

PRODUCT RANGE

MOTION SENSOR | GAS LEAK SENSOR | LUX SENSOR |
DOOR SENSOR | IP CAMERA

Gone are the days when you worry about your most precious - you're Home!

Let your home notify you by triggering a blaring siren if you have left your door open behind you or worse if someone breaks in when you are away.

Keep a watch on your loved ones from anywhere instantly by switching on the video feed on your NUOS App. You can also schedule your lights to turn on and off with just a swipe.

Why NUOS Home Automation?

NUOS offers 20+ Zigbee smart patented products all under one platform which addresses your smart space needs by simplifying the way the space is automated.

You need to just replace your old manual switches with our smart touch switches/sensors without any change in the wiring. It just takes 20 mins per switchboard to install our switches and you can start controlling them via your smartphone from anywhere in the world and through Alexa/Google Home as well.

CUSTOMERS SPEAK

Extremely happy to have NUOS Home Automation for my project, their dedication to my project is evident in all aspect of site. I appreciate their attention to detail and creative approach to bringing my client home to life.

Girish Gohil

Architect and Design Head, GL interiors Pvt. Ltd., Mumbai.

We have had a wonderful experience with NUOS. From the start of the project, the entire team has been very co-operative and given us solutions that fit just perfectly with what we had in mind for our home. Even after the work was completed and everything was handed over to us, till date we have technical support from Nuos which is just a call away! Very happy with pre and post sales services, and will surely recommend this further to friends and family looking at simplifying their homes.

Priyanka & Ashay Gupta

Director, Adroit Financial Services Pvt. Ltd.

Geetika and her team at NUOS helped us execute motion sensors at all out studios seamlessly. Right from understanding the requirement to doing the recce to getting it installed and closing the project.. it was such a smooth ride and pleasure working with them.

Truly appreciate the professionalism promptness they bring to the table with so much transparency and a great product! Look forward to working with them for our new studios too

Saloni Khosla

Associate Vice President, Pepperfry.

Being an architect, I have used all the switches that are leading in the industry and I can easily say that NUOS switches are simply the best & will definitely be an upcoming leader of this industry.

Along with being affordable and able to cater to the automation needs of a common man, their quality is fantastic and they offer a variety of styles to choose from.

I can't say anything about 'after sales service' because I have not received a single complaint till date from any of my sites in all these years.

I would like to highly recommend NUOS to architects, interior designers & anyone looking to install smart switches in home or office for automation and feel the luxury themselves.

Shishu Yadava

Principal Designer, Home Makers Interior Designers & Decorators.

When we were looking for automation solution for our house, we were recommended NUOS Home Automation by our architect. What differentiated NUOS Home Automation from others was the fact that they took pains first to understand our requirement and then provide with a solution.

A solution that was both practical and cost effective rather than just giving off the shelf solutions.

Irrespective of the size of the project, the founder Mr. Neil Savant and Mrs. Geetika Srivastava get personally involved in understanding the client's requirements and providing a customised solution. Their software is very user friendly and is being upgraded on a regular basis by taking inputs from their current users and incorporating their suggestions. The same goes for their product line also which they are constantly updating. This is what differentiates them from the rest of the crowd.
