# INTRODUCTION

## MOTORGLAZE – CREATING WONDERS

The name is enough when it comes to explain what we at Motorglaze are into. We are Creating Wonders and raising the bar for car detailing products in the world. Motorglaze is an Indian Company which has its own manufacturing unit and packaging center located in India.

## SAFETY & REGULATIONS:

Safety & Regulations Motorglaze here is very much aware of the safety and risks involved in manufacturing products which can be risky if the procedures are not followed and maintained.

To support our team we have backed it up with certifications to make sure we are maintaining the safety standards, the quality in manufacturing process so our customers and dealers don't feel insecure.

We have been certified with

ISO 9001:2015  
Quality Management System.

ISO 45001:2018  
Occupational Health & Safety  
Management System.

CE -product  
Certification

GMP - Certification  
of Good Manufacturing  
process System.

US- FDA -United States  
Food and Drug  
Administration

# GRAPHENE KIT

## NANOTECHNOLOGY CERAMIC COATING:

Graphene is the strongest material ever discovered which further helps in better adhesion and durability.

Motorglaze Graphene Ceramic Coatings has advanced super improved formulation where inclusion of graphene our Ceramic Coating has evolved to advance performance. Specifically designed for wide range of weather conditions.

Graphene material has higher hardness, higher resistance, higher tensile strength, extra ordinarily strong and tough.

More than 10H hardness acts as a barrier for light abrasions

- COMES WITH 7 YEAR'S DURABILITY

- HIGHER STAIN RESISTANT AGAINST BIRD DROPPING, TREE SAP

- EASIER APPLICATION

- FIRE & HEAT RESISTANT

- DEEP PENETRATION IN MINOR SCRATCHES

- SUPER LEVER GLOSSINESS

- ULTRA VIOLET PROTECTION

- ULTRA WATER BEADING AND HYDROPHOBICITY

- MULTI SURFACE APPLICATION- PAINT, GLASS, HEADLIGHTS, MIRRORS, CHROME, ALLOY WHEELS. ETC

# GRAPHENE

## CERAMIC COATING

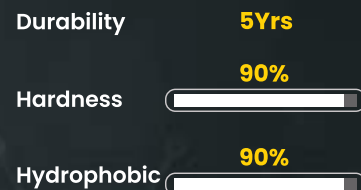

# CERAMIC XPERT KIT

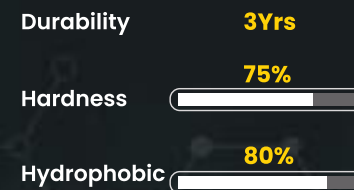

## NANOTECHNOLOGY CERAMIC COATING:

Motorglaze Ceramic Xpert™ - Ceramic Coating is an Advanced easy-to-use Ceramic Coating. With improved characteristics, this coating is appropriate to add long-lasting, extreme self-cleaning effects for single-stage and clear-coated, painted surfaces, glass, polycarbonate and wheels with a single bottle.

### CERAMIC XPERT 10H

### CERAMIC XPERT 9H

- >10H Hardness, 5+Years of Protection
- 50% Increased Coating properties Over Regular Ceramic Coating
- Inclusion of Specially formulated additives ensure Added Durability and Longevity
- Less prone to water spotting
- Higher stain resistance against bugs, saps, droppings, etc.

- Higher scratch resistance during the washing process
- Increased depth and clarity to all surfaces
- Super Hydrophobic
- Anti Oxidisation
- Super Strong Bonding

- Advance Level Glossiness
- Lower sliding angle with water evacuating at angles less than 10-15°
- Higher contact angles averaging more than 110-118°
- Free to apply to all Painted Surfaces, Glass, Headlights, Chrome, Wheels, and even Bed Liners!

Nanotechnology Ceramic Coating

# WRAPSHIELD

## NANOTECHNOLOGY CERAMIC COATING:

---

A quick spray and wipe application. The function of Wrap Shield is to deliver durable protection, great chemical resistant with unbeatable reliability at a great price.

Wrap Shield is neutral on all types of Wrap finishes. It offers super strong bonding and promotes anti aging.

Wrap Shield safe guards all types of vinyl wraps from Environmental Attacks and Oxidisation. The special Nanotechnology formula is super Hydrophobic which helps in easy cleaning of Vinyl Wrap surfaces.

---

**Available in 100ml**

# LEATHER & TRIM

## INTERIOR CERAMIC SPRAY: (ANTI-MICROBIAL)

---

The advance Formulation is specifically designed for the car interiors hygiene and safety. The ANTI-MICROBIAL coating ensures there is no cross contamination of deadly microorganisms hence promoting healthy living.

This advance formulation kills all deadly viruses, bacteria's and fungus Prevents mould growth on leather seats and keep them clean looking fresh and new.

Leather & Trim interior Ceramic Coating is a clear, semi-permanent ceramic nano coating that protects your vehicle interior from wear and tear, color fading, stains & spills, and UV rays while repelling water, dirt and other contaminants.

---

**Available in 100ml**

# SAPPHIRE LITE

Introducing a unique combination of nanotechnology paint Ceramic coating in a spray form. Which is very quick, easy and efficient to apply and stays on the surface for several months.

Sapphire Lite imparts perfect gloss and hydrophobicity on the exterior paint surfaces. A simple spray and wipe concept makes it easy to apply.

Sapphire Lite forms a protective layer after coating which further reduces, scratches caused by external forces and reduces the degree of damages to the paint.

---

**Available in 100ml**

# ZIRCON GLASS

An extremely powerful nanotechnology ceramic protective coating for automotive glasses & windscreens offers super Hydrophobicity. Zircon Glass offers best water, oil repellency & does not allow liquids, rain, dirt, dust, bird faces & other contaminants to stick on the glass.

Zircon Glass enhances visibility & durability of automotive glass surfaces, thereby improving safety. Zircon Glass imparts easy-to-clean and accelerates self-cleaning effect. Dirt and external particles slide off post-coating at speeds over 60 km/hr.

## BIRD DROPPING - 5.1

This a strong and effective formulation developed specifically for bird droppings and insects. Bird Dropping Remover 5.1 dissolves contamination and ensures scratch free wash. It's a quick action formula which works fast , it is safe on paints and ceramic coatings.

Bird Dropping Remover is again ready to use and easy to apply product. Just a spray will remove most of visible contamination easily. It removes heavy settled droppings without scratching the paint or coating.

**Available in 300ml 5 Liters**

## ENGINE DEGREASER

A professional grade advanced formulation is designed to loosen and emulsify grease, oil, dirt, and grime. The Motorglaze degreaser is perfect for cleaning engines, machinery and tools keeping vehicle engine bay clean is as important as keeping your vehicle exteriors clean.

Engine Degreaser is specifically formulated to break down the toughest grease and grime in the vehicles engine bay.

**Available in 300ml 5 Liters**

## PUMPING IRON - 6.1

A strong powerful NON ACIDIC formula for Highly effective cleaning of Car wheels grime dirt, iron deposits and brake dust. Pumping Iron 6.1 makes your wheel cleaning process easier and quicker. Pumping Iron also helps in removing contamination and oxidation from the paint surfaces which further helps detailers by spending less time in paint correction process.

This effortless cleaning helps save time and energy. Further It helps in loosening dirt, brake dust and helps in cleaning ferrous deposits. Pumping Iron 6.1 is Safe on all types of rim, finishes, and ceramic coated paints.

**Available in 300ml 5 Liters**

# TAR VANISH 7.1

On Everyday use the vehicle accumulates large amount of tar and asphalt contamination which is a big issue. Important benefit of Tar vanish is it does not effect any exterior surfaces. It can be used on painted surfaces, glass, plastic, trims painted and un painted.

## **Safe on Ceramic Coated Paints.**

---

Tar Vanish 7.1 helps in Speeding up the detailing process. It accelerates the tar decontamination process which further saves clay time. Tar contamination gets dissolved in no time leaving a smooth finish.

## PAINT REFINER - 4.1

---

This is technically advanced formula, it not only accelerates cleaning the grease, grime, oily substance, residue of paste or old wax but also helps in solving them.

This further helps in quicker and effective cleaning and makes the surface ready for coating or waxing.

---

**Available in 300ml 5 Liters**

Paint Refiner 4.1 speeds up the coating or waxing adhesion on the surface to be treated. Paint Refiner 4.1 is a necessary supplement for preparation of vehicle before coating or waxing. Paint Refiner 4.1 has a strong degreasing property which leaves the paint clean smooth and anti static.

## CLEAN GLASS - 5.1

---

Clean Glass 5.1 is an advanced formula for fast, effortless and effective cleaning of all automotive glass. Clean Glass 5.1 offers deep cleansing action which further speeds up the detailing process. It imparts crystal clear transparency promotes safe driving. Clean Glass 5.1 adds a hydrophobic & antifog effect to the glass, again promoting safe driving.

---

**Available in 300ml 5 Liters**

## ULTRA FOAM

---

Most of paint defects occur as consequences of improper washing.

Ultra Foam is a concentrated formula which offers SUPER FOAMY .

Ultra Foam is naturally water soluble, it has a pleasant aroma and a long lasting foam.

Ultra Foam is super slick, this slickness with smooth gliding of gloves over paint surfaces ensures much efficient cleaning which further helps to minimize the risk of developing new defects on the paint of car. Being very gentle on delicate parts it's Good in cleaning power to dissolve the dirt easily & adds shine to the car. Ultra Foam is ceramic coating and paint friendly.

---

**Available in 300ml 5 Liters**

# CAR BATHE - 8.1

Available in 300ml 5 Liters

Super highly concentrated formula with 8 features, Innovation of very thin viscosity which makes easy to pour. This innovative formula offers super foamy and large amount of suds, with pleasant aroma. Highly slick formula ensure uniform coverage and glides on the Paint surfaces. Effective SELF cleaning makes it a TOUCH LESS shampoo.

Accelerates deep cleaning and anti scaling which does not need too much of scrubbing and saves time. Despite being highly concentrated it's Safe on all delicate parts and does not strip wax. Safe on paint and ceramic coated surfaces Super glossiness feature adds a fresh glossy look on the paint.

# MICROFIBER CLOTH

---

Motorglaze Microfiber Cloth is made of polyester and polyamide which helps in cleaning dirt and trapping of dirt.

Specially manufactured Microfiber Cloth is highly water absorbent offering Scratch free cleaning.

Motorglaze Microfiber cloth is used for cleaning exterior paint surfaces, interior dashboard, leather seats, all automotive glasses and lights.

Motorglaze Microfiber Cloth is easy to use, clean and long lasting.

Backed up with 3 decades of experience in the automobile industry, Motorglaze has a dedicated team driven with pure passion to put the power of premium grade nanotechnology in the hands of detailing enthusiasts. We know our customers love for their car that's why we deliver premium vehicle paint protection, car maintenance and car cleaning products.

Ensuring durability, quality and eco friendly measures with years long dedicated automobile enhancements. Motorglaze leaves you astonished by its innovative car detailing products.
