WIRE MESH & PERFORATED SHEET

Bajrang Metal Crafts Supply of Wire Mesh Stainless Steel Perforated Sheets for the specific requirements / application of industries. We also stock all industrial goods such as Wire Mesh, Perforated Sheets, Weld Mesh, Cramped Mesh etc. Our two years Bajrang Metal Crafts India has established itself as a reliable Quality Conscious Suppliers of stainless steel perforated sheets to large number of engineering / Project Companies. Bajrang Metal Works, Stocks All Items in 304, 304L and 316L in multiple gauges and pattern sizes. Bajrang Metal Crafts will process your Order.

Bajrang Metal Crafts offers world class Stainless Steel Perforated Sheets & Coils to his customers worldwide. We specialized in wide range of Perforated sheets & Coil design like Round Holes Staggered Pitch, Round holes Square Pitch, Square Perforations, Hexagonal Perforations, Slotted Perforations, Creative Line, Edgings etc. The offered products are made available to the customers as per their detailed specification and are rendered in timely manner.

Get in touch today with your requirement!

Product Range

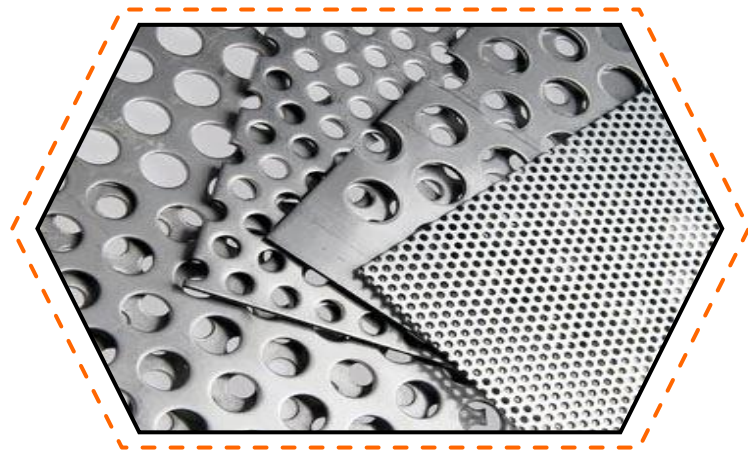

Stainless Steel Wire Mesh

- Range : 1 mesh to 500 mesh
- Thickness : 0.025mm to 2.5mm wire diameter
- Material : Stainless Steel (304, 316), Galvanized Iron, Aluminium, Brass Copper, Fibre & Epoxy coated.

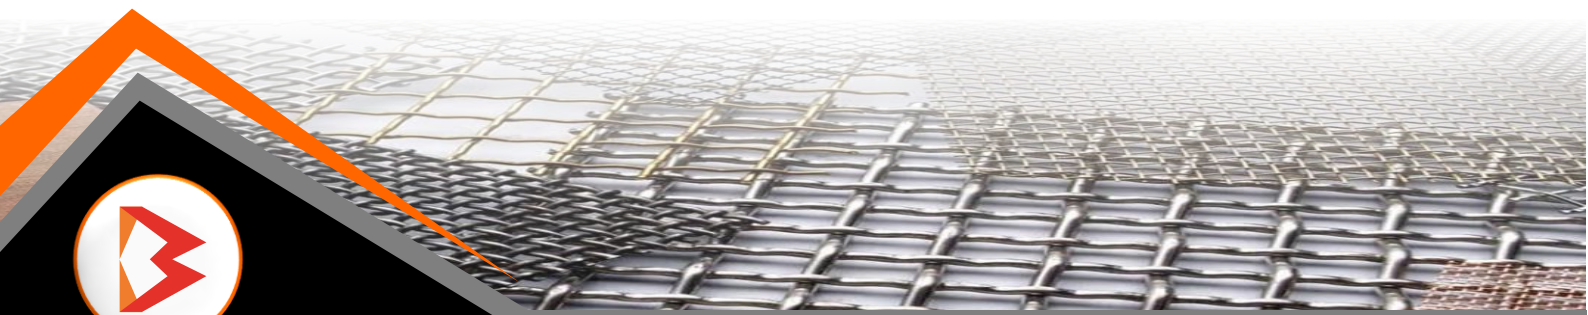

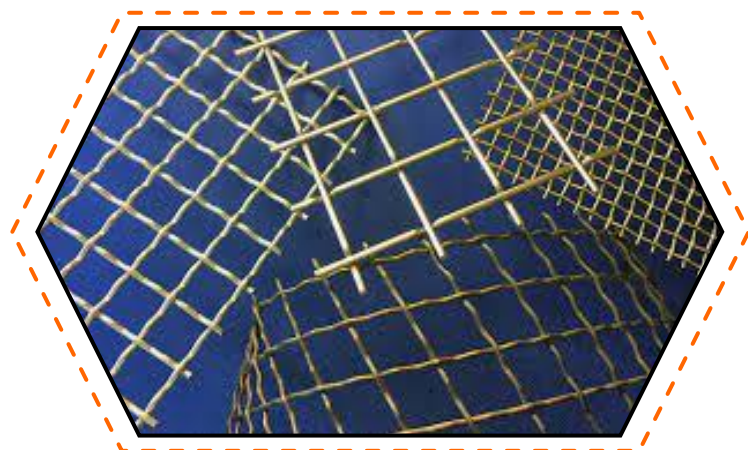

Stainless Steel Perforated Sheet

- Hole : 0.5mm to 10mm
- Thickness : 0.35mm to 12mm thickness
- Material : Aluminium, Stainless Steel, Galvanized Iron and Mild Steel

Crimped Wire Mesh

- Range : 2mm to 125mm Opening
- Thickness : 1mm to 10mm thickness
- Material : Stainless Steel (SS 304, 316) Galvanized Iron

Perforated Pipe

- Thickness : 1mm to 5mm
- Diameter : 50mm to 500mm
- Length : 2000mm, 2440mm, 3000mm, 5800mm, 6000mm, etc.
- Material : Stainless Steel, Aluminium, Mild Steel and Galvanized Iron.

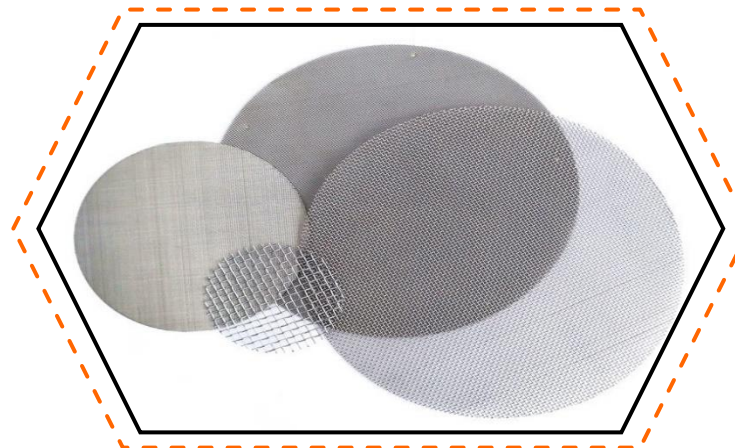

Chain-link Fencing

- Opening : 2", 2.25", 2.5", 3", 4", 5"
- Thickness : 14swg (2mm), 12swg (2.6mm), 10swg
- Material : Aluminium, Mild Steel, Galvanized Iron and Stainless Steel

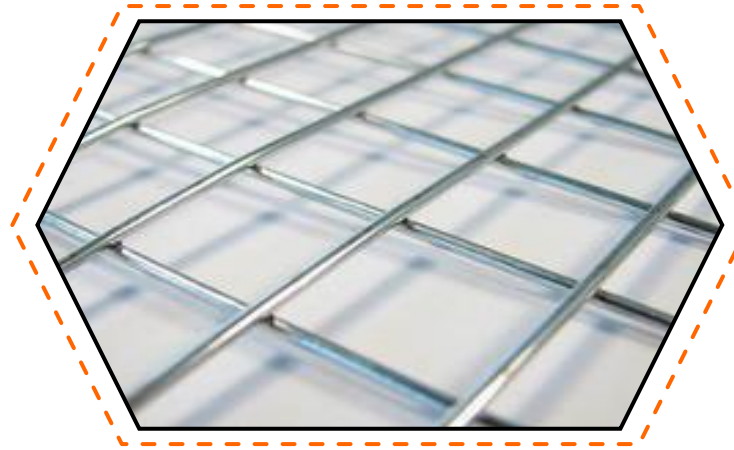

S.S. Cut Filter

- Size : 150mm round, 220mm round
- Rating : 10 Microns to 1000 Microns
- Material : Stainless Steel (SS 202, xx) as per application.

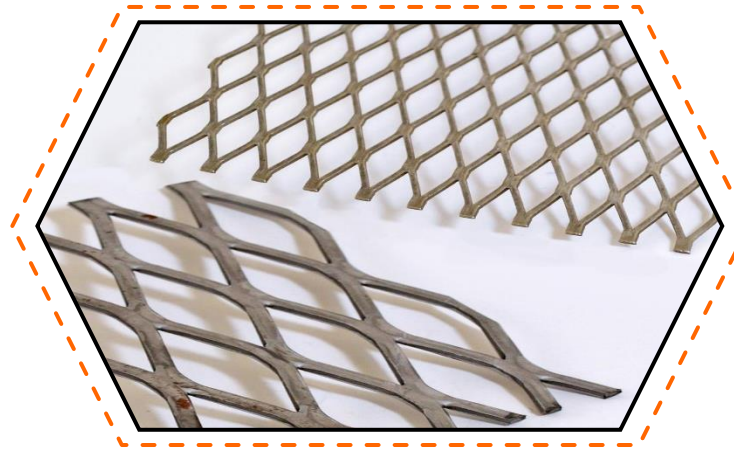

S.S. Weld Mesh

Thickness : 0.4mm to 10mm
Width : 100mm to 1500mm
Length : 2000mm, 2440mm, 3000mm,
5800mm, 6000mm

Expanded Metal

LWD : 12.5mm to 200mm
SWD : 5mm to 8mm
Thickness : 0.5mm to 8mm
Material : Aluminium, Mild Steel,
Galvanized Iron and
Stainless Steel

Mosquito Nets

Hole : Less than 1.5mm
Finish : Aluminium, SS Finish, All
Black Finish
Grade : S.S. 202, S.S. 304 & S.S. 316
Size : 2.5ft, 3ft, 4ft, 5ft

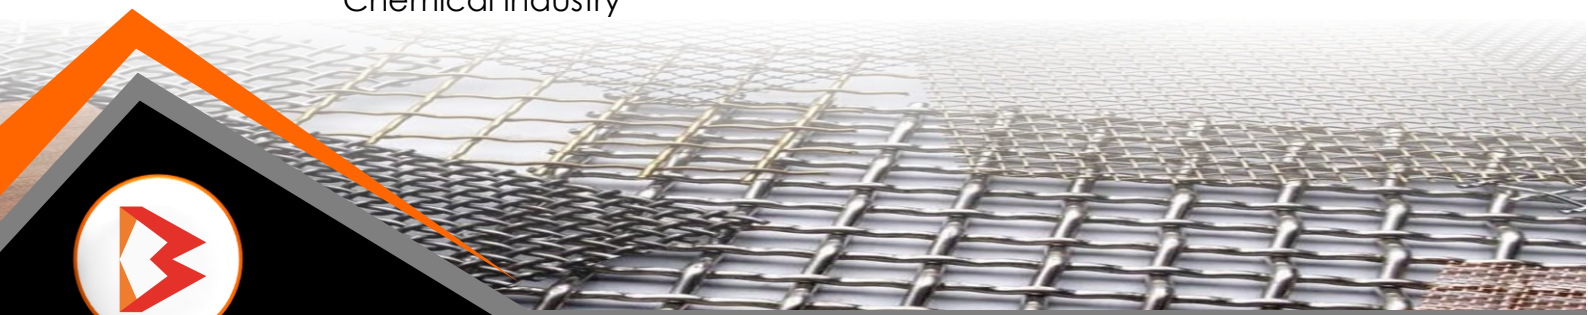

**vibrating
screen**

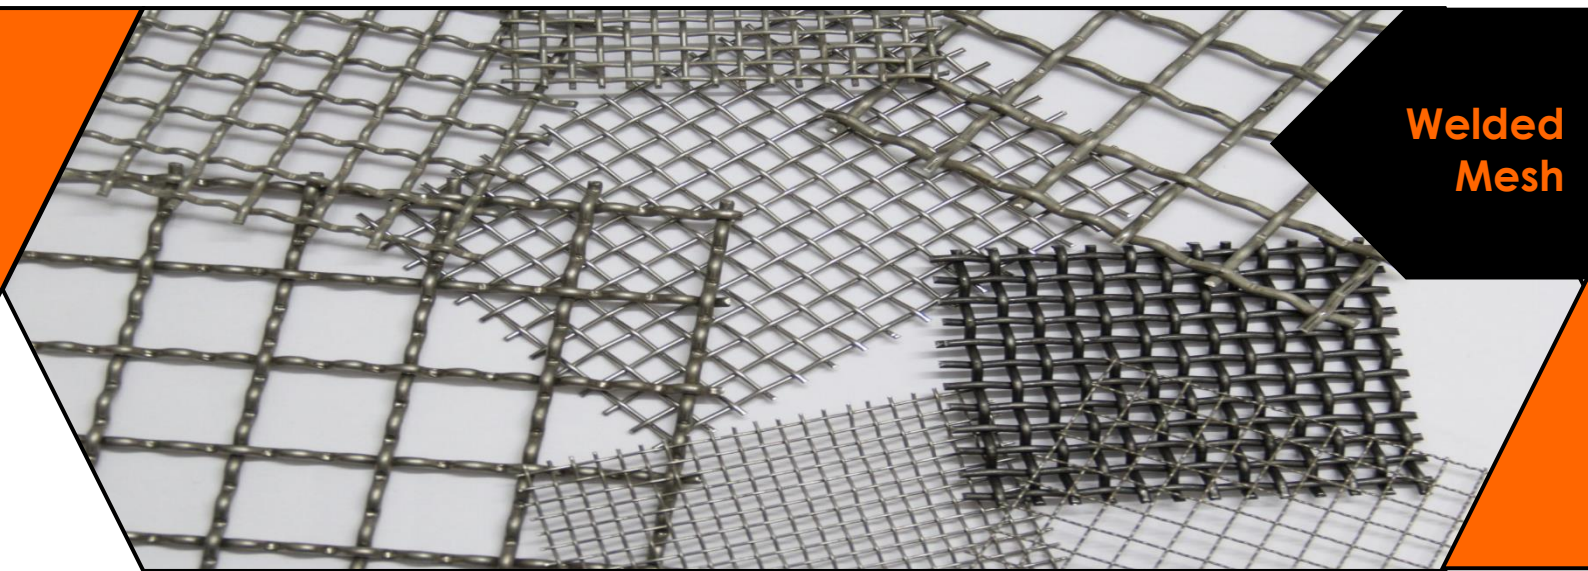

We Offer wire screen used in vibrating Screen Machine. We provide screens with and without clamp of various sizes as desired by the user. The Screens are Specially designed for both wet and dry feed, these **Vibrating Wire Mesh Screens** are used in various industries to separate feeds containing solid and crushed ores. Depending on the nature of material, the selection of the screen can be made in different weaving patterns, materials, wire sizes and edge preparation.

Vibrating Wire Mesh Screens

- Opening : 2mm to 125mm Opening
- Thickness : 1.2mm to 12mm Wire diameter
- Material : Spring Steel
- Features : Resistant to wear and abrasions
Highly resistant to heavy impact
High temperature resistance
High tensile strength
Excellent stability
- Applications : Construction industry
Metallurgy industry
Mineral industry
Agriculture industry
Plastic industry
Coal industry
Chemical industry

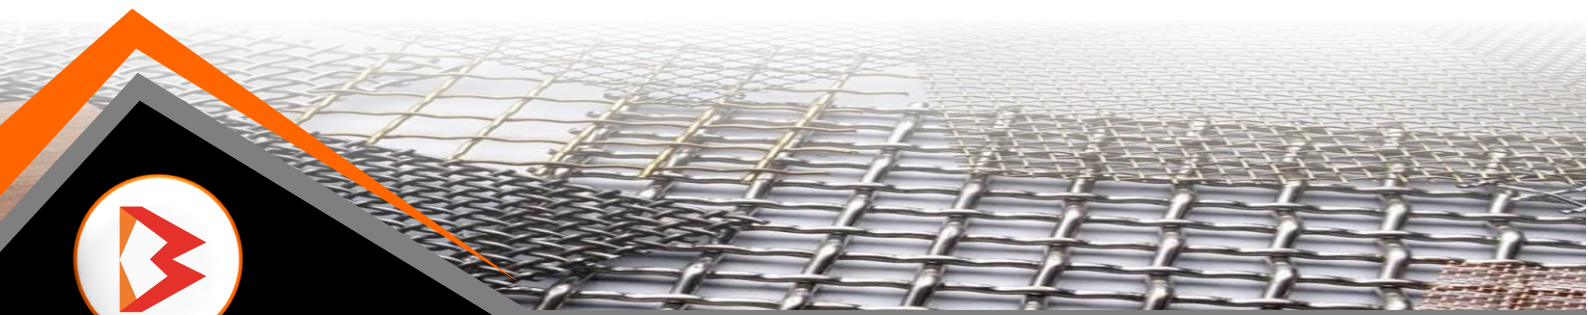

Welded Mesh

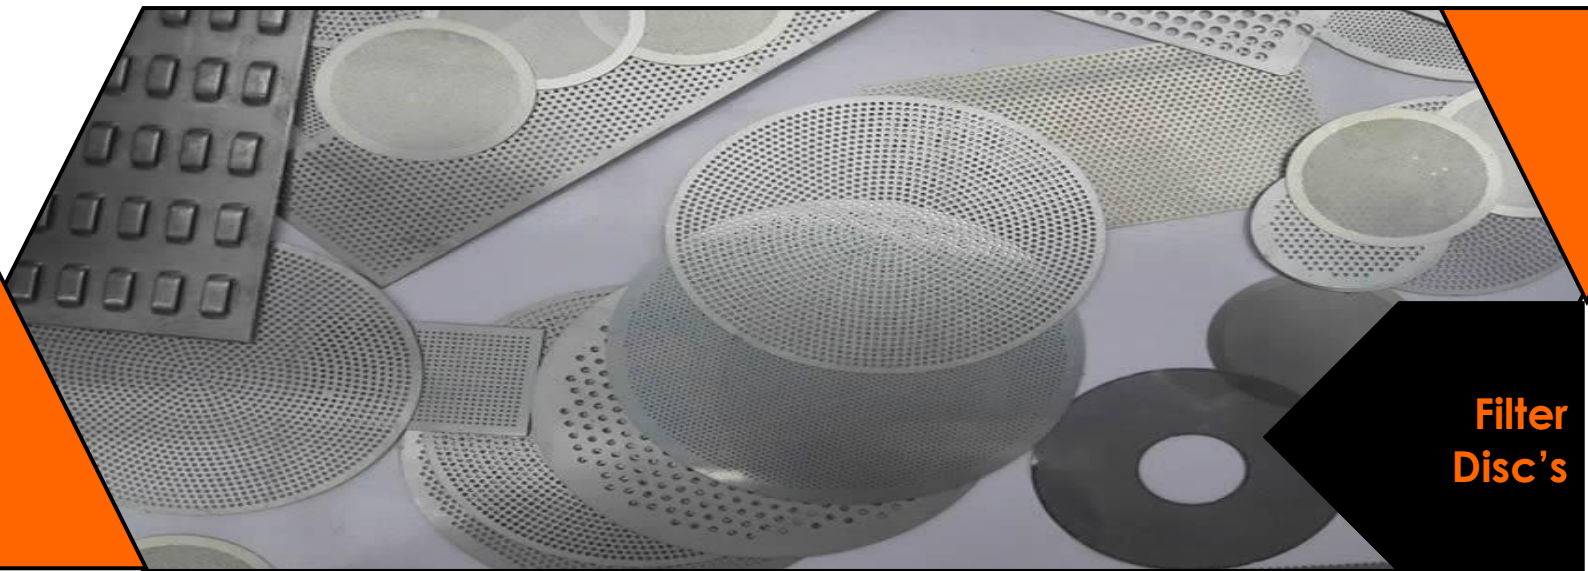

Welded Wire Mesh is a variation of wire mesh, wherein the intersections are resistance welded accordingly to the material. They are available in rolls or flat panels.

They have varied usage across industries ranging from infrastructure to fabrication. The entire range is available with us in different specifications at market leading prices.

- Opening : 15mm to 150mm
- Wire Dia. : 1mm to 6mm
- Material : Mild Steel (MS), Galvanized Iron (GI) and Stainless Steel (SS)
- Features :
 - Sturdy design
 - Flawless finish
 - Accurate dimensions
 - Flat even surface
- Applications :
 - Construction Industry
 - Metallurgy industry
 - Mineral industry
 - Plastic industry
 - Coal industry
 - And other Fabrication Entities

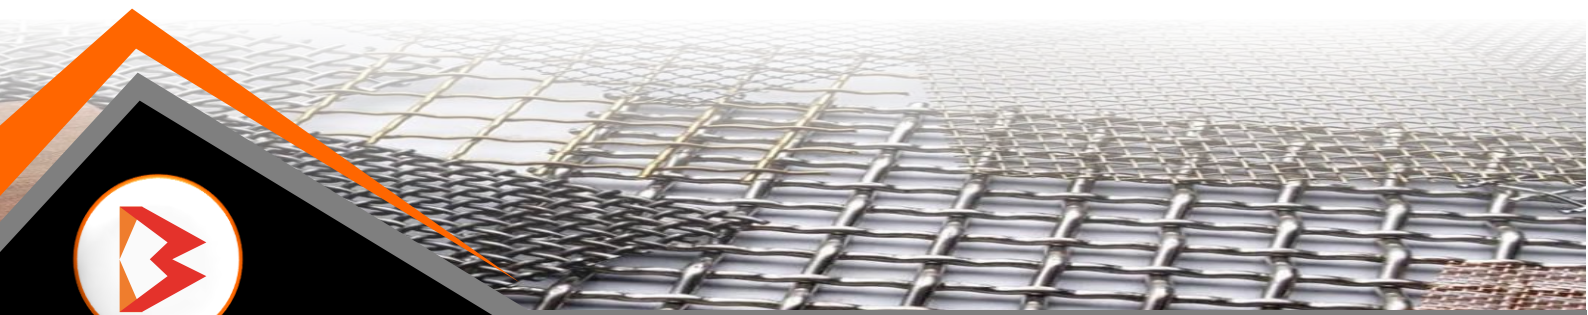

Filter Disc's

Perforated Filter Disc is made by cutting of Wire Mesh in a round sizes to meet the specific requirement of industries and also used as filter Disc's. Two or more specification of Wire Mesh are cubbed together and used as sandwich mesh. Perforated filter disc can be used in filtration of air, liquid, solid, oil and other fields

Perforated Filter Disc

- Disc Shape : Round
- Size : 80mm Disc filters are Commonly used
150mm round & 220 round
- Sieves : 10 Microns to 1000 Microns
- Material : Stainless Steel (SS)
- Layers : single layer or multiple layers.
- Material : Stainless Steel, Low Carbon Steel, Aluminium, Copper
- Applications : Rubber Industry
Plastic Industry
Sewage Treatment
Petroleum & Chemical Industry
Vehicle Industry, Ships
Food making applications.

INDUSTRIES WE SERVE

Petroleum Refinery

Electric Power

Food Processing

Nuclear Industries

Pharmaceutical

Ship Building

Offshore

Sewage Treatment

Paper Mills

Textile Industry

Chemical Industry

In addition to the above mentioned industries, our products are also utilized in following industries :

Automobiles
Heat Exchangers & Condenser
Architectural Application

Chilling Plants
Sugar Mills
Instrumentation

Railways
Thermocouples
Heating Elements

Fertilizer Plants
Submersible Pumps
Water Pipelines
