COMPANY PROFILE

The foundation stone of **SRI RAM ENTERPRISE** was laid in the year 2007 and the operating unit of the company is located in Kolkata. SRI RAM ENTERPRISE is a sister concern company of **POWER INTERNATIONAL**, a leading firm engaged in supplying various electrical items required in RGGVY, BRGF projects, industries, and construction groups. The company has been scaling heights of success under the due guidance of the honorable Managing Director, **Vikash Baid**. Mr. Baid has vast experience of more than 8 years in this particular domain.

Infrastructure

We have developed a state-of-the-art infrastructural base that is spread in vast areas and is loaded with advanced machinery, tools, and equipment. By using advanced production techniques, we are capable of manufacturing and supplying the best quality line products.

Team

We are backed with the support of a deft team of professionals that serve as our backbone. Our professionals are well-versed with various aspects of production of a qualitative range of products. We have appointed experts from different domains, leading our company towards success.

Quality Assurance

Quality is the prime concern of our company. Hence, we conduct stringent checks on all our products following set quality standards and parameters. Different Govt. organizations and CPRI Bangalore conduct tests as per IS: 1445-1977, ensuring clients about the superior quality of our product.
