ABOUT SAANVI ENTERPRISES

Saanvi Enterprises is among the leading names in the plywood and home interiors trade in Odisha. Headquartered at Rourkela, Saanvi Enterprises is associated with top national and international home infrastructure brands. It deals in more than 50 product categories including plywood, laminates, veneer, handles, locks, solid surface, modular kitchen fittings and hardware fittings.

One of the major aims of the organization is to educate its stakeholders about various home interior products and their features so that they make an informed purchase decision. To do so, it has developed its website, mobile app, VR Technology and product catalogue, using which stakeholders can gain substantial knowledge about different home interior products.

Saanvi Enterprises understands that people build their homes with a lot of passion but due to lack of guidance, in most cases, end up not fully satisfied. Hence, we aspire to bridge that gap and guide people to build their Dream Homes!

OUR HISTORY

Saanvi Enterprises began its journey towards the end of 2019. Initially, it started dealing in products (majorly Plywood) of Greenply but within a few months, it also began retailing Laminates of brands like Merino and Greenlam Laminates. All its operations were carried out from its warehouse in the initial days.

In 2020, it opened up Rourkela's first multi-brand showroom (spread over an area of 2000 sq. ft.) of home interior products featuring plywood, laminates, veneers, modular kitchen, handles, solid surface, etc. By now, Saanvi Enterprises had made associations with many home infrastructure international and national brands.

Today, Saanvi Enterprises has made a name for itself as the One Stop Solution for Home Interior Products in Rourkela and adjoining areas. About 35 brands, including India's 17 top-most infrastructure brands are associated with it.

Sumit Chanduka Founder, Saanvi Enterprises

LEADERSHIP

Mr. Sumit Chanduka hails from a business family. He was actively involved in the day-to-day running of their family business - Hindustan Trade Syndicate, before establishing Saanvi Enterprises in 2019. He, with his astute business sense and assisted by sincerity and progressive knowledge, hit upon the idea to create a single platform for home interior infrastructure, where companies could showcase their products to customers and bring awareness and increase demand for such products in Rourkela.

Team Saanvi at Annual Meet 2023

Saanvi Enterprises, under the leadership of Mr. Chanduka, in the last five years has effectively implemented its manifesto with focus on bettering everyday. Today, it has captured the imagination of architects, interior professionals and customers of Rourkela and Sundargarh district. And at the same time, the firm has gone on to make associations with some of the top home infrastructure brands in the country including Greenply, Hettich, Merino, Century Plywood, Austin, Greenlam, Godrej and many others. In recent times, Mr. Chanduka has also started a branch of Saanvi Enterprises at Sambalpur and has plans to expand further in different parts of the state.
