Thanks to Ramesh. Thought it would be good but in fact the best workshop attended till date, even though have attended more than 50 workshops, I highly recommend for everyone to become financially literate. I never thought financial management would be so easy, he made it simpler than simpler ever 5 year old kid could understand. He is a great teacher and got complete mastery of his skills. Its very much need of the hour. Don't Delay please attend at the earliest and get benefitted at the earliest. I wish this should be taught as CURRICULUM. He has got vast experience and complete hold on his subject, yet humble and Kind.

Dr. Gyan Kumar – Dentist

I attended two day cash flow workshop conducted by Ramesh. It was an eye opener for me. I was breaking my head all these days trying to understand why I don't a rupee in my pocket while I work very hard. I understood that I am not even in the game of making money. Some learnings are as follows:

1. I never bothered about working on solution with numbers. It was always in the mind. Now I have clear numbers on excel and exactly know what number to chase and make it zero by when
2. I was shocked to learn about Wealth Ratio. Instead of chasing so many things, If I can make only this Ratio positive and cross 100% then my credit worthiness will improve a lot
3. I never given importance to Passive Income and always operated with cash in hand mode. Now I understand how critical it is
4. Now I started liking subject of money and clear that I am going to crack all bad decisions I made in the past by making 100 times more good decisions going forward
5. My purpose of money is clear and I am going to be crazy rich in coming days
6. Becoming Rich is team game, not individual game

Thanks Ramesh for putting so much of work behind the workshop and delivering it wonderfully. Would like to see you very often in Bangalore for similar programs in future. Let's also start supporting each other and make everyone's money game moving.

Ashok (Entrepreneur – Founder Talent First)

My gratitude and appreciation to Ramesh, With all my knowledge, experience and awareness I can tell everyone that the education you impart is the most amazing one. I totally surrender to you for the Vision and Mission that you have. As we all know that Money is a taboo subject. But with your kinder garden style of teaching, but now with your help and guidance, we all who have attended the training will speak the language of financial freedom in Abundance and also through your education got to know something heard before which is "Financial Spirituality and Spiritual Money" Wow. What a beautiful set of two words This is what we all should aim for Spiritual Money. I thank you with all my heart.

RAMYA: I'm Ramya Bharathy, an MCA graduate and an Ex-IT professional. Fortunately, through our friend, we met our Guru Mr. Ramesh, who opened the door for abundance.. we get a lot of seminars, webinars, and so on, out of which, what is beneficial, what is irrelevant, we need to find out. Ever since we met and joined hands in Ramesh sir's club, our vision got shifted to new heights. Being with a healthy, like minded, experienced, professional group of people, you definitely will experience the financial freedom. Now, we are owning a Baggit store, which is beyond our capacity as imagination. That's what Financial education does to you.

In the current situation,, Here with our guru Ramesh Sir, we are developing a very important skill in our life. It's about being smart with numbers. I'm so glad that I could spend very valuable time with such a wonderful team, where we had brainstorming with formulas, logics, time and even fun.

GIRISH: Firstly I need to thank my pal Anand for introducing me to this wonderful group of like minded people. Initially I was quite apprehensive of the outcome of the workshop and of joining this group, but I must say that the decision to join the group and to attend the workshop was indeed the best one. The workshop was a very intensive one with effective exchange of excellent information on financial planning and investments. Ramesh sirs teaching and the way of interaction with the group was brilliant. To be truthful never in my entire life have I been so engrossed in a class as much as I have been in the last two days. Even though the calculations and workouts were very intensive, they were fun and exciting at the same time.

Ramya - Girish Sundar (Auto Component Manufacturers)

It's been 3 years for the first time I have seen the Cash Flow in MEETUP organised by Ramesh

I wonder why I could not have joined at that time, the amount of financial knowledge and wisdom I would have received could have given me the opportunity to leverage the options and made me to start my journey to reach the financial Goal. "Better late than Never " Thanks Ramesh C.Kiyosaki for the learning's and eye-opening concepts and calculations, to name one, " Saver is loser".

No doubt you have mastered the game of money and the amount of knowledge you have attained, reflects in your teachings the way you have customised the concepts to understand in a simple and nativity.

1. Financial Statement is the center of the world of money just as the sun is the center of the solar system. If a father has a weak financial statement, the entire family suffers, If a Business has a weak financial statement, the employees suffer and if country has a weak financial statement, the citizens suffer.

2. It doesn't take money to make money. It takes words. The difference a rich person and poor person is the person's VOCABULARY. All a person needs to do to become richer is increase his or her Financial Vocabulary. And the best news is that most WORDS ARE FREE.
