HEARING LOSS COMMUNICATION TIPS

- If necessary asked people to slow down and speak more clearly.
- Ask people to get your attention before they start talking to you.
- If your hearing is not the same in both ears, make sure you are in the best position to maximize your good side.
- Don't be shy about asking people to change place with you.

Speech Therapy

*Building today's communication skills.....
for successful tomorrow.....*

**Does your child find it hard to pronounce words ,
understand language and express themselves ??**

What is Speech Therapy ?

Speech therapy is the assessment and treatment of communication problems and speech disorder. it is performed by speech-language-pathologist (SLPs), which are often referred to as speech therapist.
