ABOUT US

Horster LifeScience Pvt. Ltd. is one of the leading manufacturers of API, and intermediates, started with **HOR**mones & **STER**oids and now manufacturing many other APIs and intermediates also. We are based in India with an FDA approved facility, and engaged in manufacturing to exclusively serve Pharmaceutical Industry.

We are glad to inform that our production facility is certified by GMP, GLP & ISO 9001:2000. We are touching highest quality standards in our work, yet not at the cost of environment. We have zero disposal of water waste in place to ensure our products are not produced at the cost of environment. Horster has significant presence globally. Our satisfied & strong customer base is spread in more than 15 countries world over. We would invite you to visit our website: www.horster.in , which is a comprehensive information source on our company and its capabilities.

OUR STRENGTHS

▪ **Quality :**

Our commitment to quality has been our benchmark. All our products undergo regular supervision and stringent quality tests as per British Pharmacopoeia, United States Pharmacopoeia, Indian Pharmacopoeia and/or Japanese Pharmacopoeia Standards. Further, the products are approved by govt. & public laboratories with a shelf life of 3-5 years. Qualified and approved chemists check the quality of products & after the affirmative approval; the goods are delivered to the clients. Thus we have achieved maximum client retention and satisfaction among our customers. All our products pass through stringent quality tests.

■ **Our Team :**

A fully integrated company, where all our departments work in close coordination with each other. Our team has professionals with a vast experience.

■ **Pricing Policy :**

With frequent visits into the global marketplace our attention is always focused on providing "Value for the Money". Our voluminous experience in the business and adherence to cost effective methods of production enable us to offer our products at competitive prices.

■ **Ware House Facility :**

We have a modern warehouse where every care is taken to protect and maintain the quality of the products. Our warehouses are equipped with the specific storage conditions required for some specific products. We continually upgrade our infrastructure to keep pace with the latest developments.

■ **Packaging :**

We have full-fledged packaging and shipping department that ensures a safe delivery of our products till the destination. Besides, for safe and reliable packing and for safety of product during transits, we use 100gm/1Kg/5Kg TIN placed in 7 ply best quality corrugated boxes for a very high valued materials and for high volume packages we use 2 liners plastic bag and HDPE or fiber drums of different weight capacities.

■ **Timely Delivery :**

With the help of our rich experience in logistics solutions, we understand every nuance of customs and port formalities and deliver all our products within the stipulated time.
