SECTORS/PRODUCTS

We believe in continuous innovation...

- **Hilltake Industries (P) Ltd.:** Hilltake is the largest manufacturer of water storage solutions in Nepal. While the inception of this company was with just roto-molded water tanks, today, we have mastered manufacturing of a complete range of plastic products and provide all water storage solutions available, through both, roto and blow molding technology. Products such as road barriers, dustbins, composting solutions, and water tanks are all manufactured in our factories. We also manufacture Stainless Steel Water Tanks with 304 & 316 Food Grade material.
- **Hilltake Plastic & Pipes Industries Pvt. Ltd:** We have PPR, CPVC, & HDPE, DWC & PVCO Pipes Manufacturing unit in Nepal, which are doing exceedingly well, and follows NS & International Standards. We produce Double Wall Corrugated (DWC) Pipes up to 1000mm DN/ID, and PVCO pipes with Spanish Technology up to 400mm DN.

DOUBLE-Wall Corrugated Pipes (DWC)

- **Hilltake Heights:** This is part of our real-estate projects. It is a residential housing complex, encompasses of two 12-storey buildings, in the heart of the city.
- **Hilltake Electrical & Refrigeration:** Hilltake is the first company to introduce air-conditioners in Nepal, as well as its other innovative household products such as water purifiers, hot-water geysers, pumps, cold storage rooms, generators, room-heaters, air-humidifiers etc.

KAILASHNATH MAHADEV

A Hilltake Marvel – World's Tallest Lord Shiva Statue

CULTURAL CONTRIBUTIONS

Kailashnath Mahadev, The World's Tallest Lord Shiva Statue, a courtesy of Mr. Kamal Jain, Chairman of Hilltake Group. It was inaugurated in 2010 by Swami Shankaracharya Madhav Sharanji Maharaj of Badrinath, India, and in the presence of several eminent leaders/ministers of the Nepal.

It is a 143 ft. tall statue, making it also the tallest Hindu religion deity statue, till date. This statue attracts large amount of tourism to Nepal, and developed an entire economy around it, creating employment and better development in the area. The statue caters to over 12 lakh/1.2 million tourists every year. This has contributed to the religious tourism in Nepal, both locally and internationally, raised the economic activity of the local community, and has made a huge impact in the development of nearby villages.

The statue is situated in Sanga, Bhaktapur, which is 20kms from the Kathmandu city-center. It is ideally situated on top of a mountain, providing Bhakts the view of entire Kathmandu valley, as well as the Himalayan range. There are many upcoming plans that Mr. Kamal Jain has visions for, such as a cable-car/ropeway from the bottom of the mountain to the footsteps of Shiva, which is currently ongoing. He also wants to add technological elements to the statue, which would make it an even more enthralling experience, and add more life to the experience.

Kailashnath Mahadev
World's Tallest Lord Shiva Statue (143 Ft.)

The construction of this 143 feet tall statue took 7 years, which began in 2003 and was completed in 2010; and is a result of innovation and divine grace which began in the year 2004, under the ceaseless supervision of Mr. Jain. He has dedicated himself completely, renouncing social obligations, tirelessly exerting day and night, facing immense difficulties whatsoever, to pay tribute to the deity and to give back to the society.

There is also a 65 room resort behind the statue "Hilltake Resort & Spa" which has 3 banquet halls, swimming pools, and restaurant options. It is the ideal destination for weddings, corporate events etc. A Perfect Getaway.

PUMDIKOT MAHADEV

CULTURAL CONTRIBUTIONS

Pumdikot has the second tallest statue of Shiva in Nepal. The statue itself is 51 feet tall. It sits on a white stupa that adds 57 feet in height, making the entire structure 108 feet high. The statue is part of a larger plan that is currently underway, which will include construction of Martyr's memorial park, a model of mount Sumeru featuring Shiva and Parvati and ensuring that the entire park is accessible to persons with disabilities. The park is projected to be about 50% done, with the Shiva statue being completed in late 2021. The statue premises also has 108 Shiva lingas that encircle the statue at its base.

Pumdikot Mahadev Statue

Hilltake has sponsored the cost of the statue at this project in order to promote this destination as a religious tourism location. This has brought many tourists to the area and developed many shops around it, giving a good economy boost to the region.
