## About us

New Sangam Decorators, a wedding decoration company that has been designing mandaps for over 40 years, can make your dream wedding come to life. We celebrate weddings the Indian way, with family and friends, with flowers and fireworks, colors and drapes, shimmers and lights!

New Sangam Decorators started off with little finance but big dreams. **Mr Akhtar Imam** set up this company more than 40 years ago with a few contracts and loads of passion. After working for a decade on pandals and arrangements for huge gatherings in halls and on grounds, Mr. Imam extended his knowledge and skill and began designing extravagant stages for weddings of different cultures.

And it wasn't just the artistic taste in design that helped him grow, but it was the detailing that set him apart. From the entrance to the stage, the mandap, seating for your guests, the dining area, the lighting, décor, wedding theme, New Sangam Decorators understands your choice and your needs. You can chose from a wide variety of coordinated themes, or just give us an idea of what you have in mind and our artists will create your own fairy-tale design!

We have a successful track record of working with different educational and cultural institutions such as the following :-

- Afghan Church, Colaba
- Saboo Siddik College of Engineering, Byculla
- Christ Church School, Byculla
- Hajj House, V.T.
- Akbar Peerbhoy College, Grant Road
- St. Xaviers College, Mahim,
- Lokhandwala Gardens, Andheri
- Fidai Baug, Andheri
- SNTD Women's University, Santacruz
- Rizvi College, Bandra  
and more...

The best thing about

*Memories*

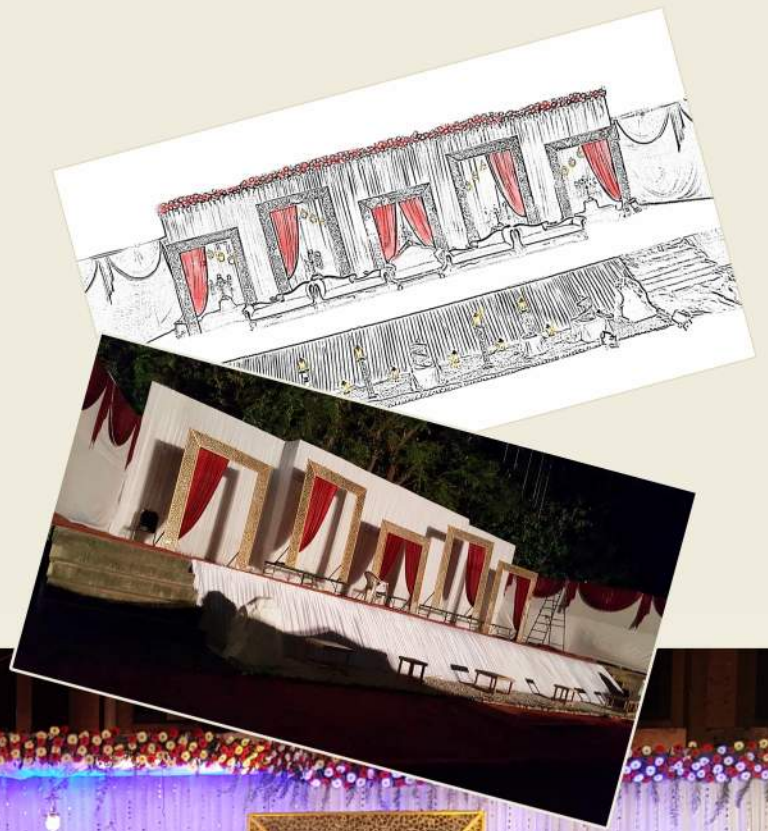

is making them

# Dream to Reality

Every great event, no matter how large or small, begins with an idea. We translate our concepts into exciting decor for weddings and events beginning with very rough sketches. Once a design is established on paper, our experts create the magic and turn your dream wedding into reality!

Shown below is how a basic concept is executed with detail and precision at New Sangam Decorators.

# Stage designs

One of the most important parts of any Indian wedding is the centre stage. This area gets maximum attention as the bride and the groom are confined to this space for most of the time. As a result, the centre stage is seen in most of the photographs of any wedding album.

Create a classic centre stage backdrop with artificial pillars and arches, or a contemporary one with colourful drapes, flowers and lights and live your dream wedding. We understand the latest stage decor trends and spell out magic on your wedding day!

# Stage designs

At New Sangam Decorators, we aspire to make your ceremonies full of memorable moments. Our unique Indian wedding decorations evoke positive emotions, while our designs and choice of colours and textures are a treat to the eyes. Our experience brings sophistication and refinement to every decor, and helps us create a mesmerizing ambience for you and your guests.

*New Sangam Decorators*

We have over 5000 weddings under our belt. And with that kind of experience you can be confident about our meticulous planning and detailed execution of every design, keeping in mind your requirements, your taste and most importantly, your budget!

Each of our projects embodies a fusion of style and sophistication while offering a highly crafted sense of place. New Sangam Decorators plans, coordinates and manages the decoration for a variety of events. These include wedding functions (roka, engagement, mehndi, sangeet, cocktail parties wedding), social celebrations (birthdays & anniversaries) as well as corporate and religious events.

# *a ground Set-up*

There's something special about an outdoor wedding. And as grand as the wedding looks on grounds, there is a significant amount of work and skill that goes into planning a beautiful celebration.

We, at New Sangam Decorators worked through every detail of this exquisite set-up at **Reclamation ground, Bandra**, keeping in mind the subtle choice of our client. The colours of the drapes, the choice of flowers and the lighting, all reflect the warmth your guest should experience on a special occasion like this!

The understated beauty of this beautiful hut-like stage defines elegance and simplicity. It takes you away from the high-rises and hustle bustle of the city into a serene set-up.

While attending to details from conception to final execution, our designers worked with the client, transforming a dream into reality. This kind of stage can be customized to suit your requirements. The stage is decorated with fresh orchids and colourful lights that creatively intertwine style and sophistication.

The dining area is set on a green carpeted floor with colour co-ordinated drapes for the tables and chairs which will make your guests feel special! Here, space plays the ultimate deciding factor while considering the layout of the tables. We work around this space to create the best dining experience for you and your guests.

Original. Unique. Timeless. Elegant. Are just a few words to describe the wedding décor and seating arrangements at New Sangam Decorators.

Who wouldn't want to see their guests comfortable and relaxed! New Sangam Decorator's in-house stylists will assist you with selecting all the elements that will create the perfect setting.

A simple drape of satin curtain across the entrance looks classy and elegant. Whatever be your choice of colour, satin drapes add the perfect touch of panache to your wedding theme.
