WORLD'S BIGGEST ONLINE GUJARATI LANGUAGE RESOURCE

OUR LANGUAGE OUR CULTURE

VISION
Language + Technology

MISSION
Preserving, nurturing and promoting Gujarati language and lexical resources through the use of world-class and contemporary technological tools

ABOUT GUJARATILEXICON

GujaratiLexicon is the first, the largest and the most comprehensive online lexical resource in Indian language. GujaratiLexicon is a landmark in the history of Gujarati language and contains resources of more than 4.5 million words. It is the result of an unshakable passion and scientific pursuit of Amar Shri Kailash Chaudharia, who had spent more than 22 years on this language.

Since its launch in 2008, GujaratiLexicon has grown and is the default portal of Gujarati language learners, with more than 400,000 visitors and the growth continues!

ABOUT BHAGIDEGCOMARAL

- Cultural lexicon of Gujarati language
- Comprehensive, scientific and rich lexicon of knowledge
- 1.85 lakh words, 4.22 lakh meanings, 20 years of research, 1000+ pages all at a single click now
- Digital Bhagiddegomaraal introduced in 21 Congress Party
- Novelty
- Mobile application

With its flagship lexicon GujaratiLexicon, the original Bhagiddegomaraal is the world's first digital lexicon and is available with a user-friendly interface.

GujaratiLexicon Team digitized Bhagiddegomaraal and launched its digital version in a record time of 11 hours. Amar Shri Chaudharia Patel dedicated the project to the world in April 2008.

GUJARAT TO GLOBAL CULTURAL
& BUSINESS SUMMIT

FIRST TIME IN ATLANTA, GEORGIA

1st Year of India's Freedom Fight

1947 was a year of immense significance for India. It was the year when the country gained its independence from British rule. This was a moment of great triumph and joy for the Indian people. The year was marked by the signing of the Indian Independence Act by the British Parliament on July 18, 1947. This act provided for the transfer of power from the British to the Indian people on August 15, 1947. The year was also marked by the partition of India into two independent states, India and Pakistan. This was a moment of great sorrow and loss for the Indian people. The year was a year of great change and transformation for India. It was a year when the Indian people began to take control of their own destiny. It was a year when the Indian people began to build a new and better India for themselves.

**Faith is of no
strength, Faith
and strength,
both are essential
to accomplish any
great work.**

10th Birth Anniversary of Mahatma Gandhi

10th Birth Anniversary of Mahatma Gandhi. Mahatma Gandhi was born on October 2, 1869, in Porbandar, Gujarat. He was a leader of the Indian independence movement and is widely respected for his non-violent resistance to British rule. He was awarded the Nobel Peace Prize in 1930. He is remembered for his leadership in the Indian independence movement and for his philosophy of non-violence. He is also remembered for his leadership in the Indian independence movement and for his philosophy of non-violence. He is also remembered for his leadership in the Indian independence movement and for his philosophy of non-violence.

FIRST TIME IN ATLANTA, GEORGIA

Water contains 73 essential minerals in varying levels but excessive minerals in hard and soft water lead to health issues. A water purifier filters out impurities and allows healthy part of water to give you water like natural spring.

- OUR FEATURES: Your Benefits**
- 100% water that passes through the RO membrane and then through glass UV purification to ensure 100% pure hygiene drinking water.
 - Disturbance free between 6.5 to 8.5 to reduce the ability of water to absorb natural minerals. The 7 stage purification process gives you water you can taste naturally.
 - It helps to reduce the spread of water borne diseases.
 - It helps to reduce the spread of water borne diseases.
 - It protects your family from danger of water borne diseases.

- Performance**
- Converts polluted water into safe, pure and hygienic potable water.
 - Has a sleek and compact design fitting space.
 - Has automatic recycling ensuring fresh water always.
 - Easy service and low maintenance cost.
 - Uncompromised purity with value addition.

TECHNICAL DETAILS

- Food grade plastics used
- Convenient installation - wall mounted OR Counter top
- UV Light Water Tank - 70 lit. Pure and hygienic water available all the time.
- (Max) Purification capacity - 15 Ltr/hr
- (Max) Dimensions - (H) 400mm x (D) 225mm x (W) 220mm
- Product Weight - 7.5 kg
- Input Voltage - 230v, 50Hz AC
- Power Rating - (Max) 10w

WATER AS PURE AS MOTHER'S LOVE

Lotus
It's For Health. It's For Life.

1 year comprehensive warranty including all filters, UV Lamp, booster pump and membrane.

1-800-000-0000

Lotus Vita RO is a Reverse Osmosis (RO) system with 4 stage water filtration. It is a post-treatment system & Manual and auto control the pH of water by the filter water like normal drinking.

OUTSTANDING YOUR BENEFITS:

- 100% water first passes through the RO membrane and then through 5th UV purification to ensure 100% pure hygienic water.
- Balance pH between 6.5 to 8.5 to reduce the acidity in water essential natural minerals. The 7 stage purification process it helps flush the toxins from your body, boosting immunity.
- Activates water molecules and improves oxygen level in the water.
- It protects your family from danger of water borne diseases.
- Performance:
 - Removes scaling and hardness from the water received through RO filter.
 - Converts polluted water into safe, pure and hygienic potable water.
 - Has a sleek and compact design saving space.
 - Has automatic refilling ensuring fresh water always.
 - Easy service and low maintenance cost.
 - Uncompromised purity with value addition.

TECHNICAL DETAILS:

- Food grade plastics used.
- Convenient installation. Wall mounted On Counter top all the time.
- Large Water Tank - 15 Lit. Pure and hygienic water available.
- Max. Purification capacity - 15 Lit./Hr.
- Product Dimensions - (G) 460mm x (D) 235mm x (H) 320mm.
- Product Weight - 7.5 kg.
- Input Voltage - 230V, 50Hz AC.
- Power Rating - (Max) 60w.

- Glowing transparent tank with LED
- Beautiful chrome plated tap
- Convenient On/Off button
- Alkaline water with pH between 6.5-8.5

RESEARCH REPORT

RESEARCH REPORT & BUSINESS PLAN

Udupur Diagnostic Market

A market research report by
WizKRAFT
RESEARCH

Intense competition for new diagnostic centre
 Arth Diagnostic is the first choice of the respondents with 44.2% respondents lead it, it is followed by Medicentre with a score of 43.2% and Dr. Lal Pathlab with 33.0%. Suprabh, which is a national diagnostic chain is not a strong competitor in Udaipur and only 10% respondents lead it. The respondents rated their likes and dislikes on the basis of cost, service, waiting time and reporting.

To further probe the reasons for liking the three main centres of Udaipur, the team at Wizzoroff went to the diagnostic centres and collected the data from there. As it was a personal visit by the team, other factors like basic amenities, ambience, uniform, footfall and crowd management were also observed.

Here we would like to show some graphical data to show the volume of business for MRI, CT, X-Ray & Sonography to break and measure competition technology wise.

The volume of MRI is good in Udaipur. Though very few diagnostic centres have it but the three main centres Arth Diagnostic, Star Imaging and Medicentre contribute the maximum. All the three centres have 15 sets MRI machines. Star Imaging does the maximum number of MRI with 30-35 MRI per day followed by Medicentre with 20-25 MRI per day and Arth with 20 MRI per day.

MRI BEAM-UP DIAGNOSTIC CENTRE

The volume of CT scans is also very high, and the city has good number of CT scan machines. During the pandemic the number of CT scans done was very high and many new machines were also installed by the standalone centres. Arth diagnostic does the maximum number of CT scan with 15 CT/day followed by Medicentre with 10 CT/day and both Dr. Lal Pathlab and Sono Lab does 5

CT/day each. Dr. Lal Pathlab, Arth Diagnostic, Medicentre and Sono Lab have 15 slice machines.

CT SCAN BEAM-UP DIAGNOSTIC CENTRE

X-Ray, which is the most common diagnostic test also has a good potential in Udaipur. Arth diagnostic tops the list in volume with around 125 x-rays per day followed by Medicentre with 100-120 x-rays per day. Dr. Lal Pathlab with 60-80 x-rays per day, Aravali with 30-35 x-rays per day and Hiran X-Ray & SonoLab doing 20-30 x-rays per day each. Medicentre has two x-ray machines whereas others have one x-ray machine each. Most of the machines are high frequency.

X-RAY BEAM-UP DIAGNOSTIC CENTRE

Sonography is done extensively in Udaipur and most of the big diagnostic centres have more than one machines. They have combination of both E series & Voluson with 6% E series machines and 33% Voluson machines. Dr. Lal Pathlab and Sono Lab have 2 machines each, whereas Arth Diagnostic, S. Medicentre have 3 machines each. Others have one machine each. Medicentre and Arth Diagnostic go neck to neck with Arth Diagnostic, doing 100-125 procedures per day and Medicentre doing 100-80 procedures per day followed by Dr. Lal Pathlab and Sono Lab where Dr. Lal Pathlab does 30-35 procedures and Sono Lab does 100 procedures per day. Aravali does 20-25 procedures per day and Hiran Diagnostic does 10 procedures per day.

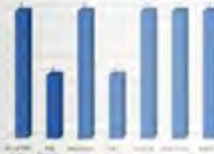

Imaging quality and sample collection, both are

SONOGRAPHY BEAM-UP DIAGNOSTIC CENTRE

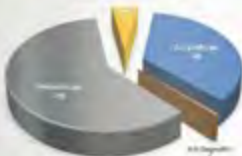

as satellite centres of the diagnostic centres helps in increasing the span of reach among the target segment for the diagnostic centre. From the patients and their relative's point of view, it becomes their convenience as they have a centre in their locality or nearby. Most of the diagnostic centres have 2 testing centres except Arth Diagnostic & Star Imaging which have just 1 testing centre in Udaipur. But when it comes to sample collection centres, Medicentre tops the list with 240 sample collection centres, followed by Dr. Lal Pathlab with 140 sample collection centres and Aravali has 21 and Arth Diagnostic has 2 sample collection centres.

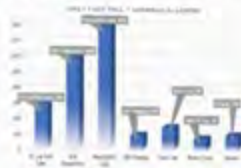

REPORT DELIVERY TIME

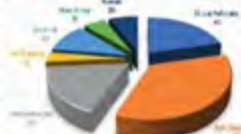

SAMPLE COLLECTION CENTRE

The number of satellite centres have a direct impact on the footfall of these diagnostic centres as the graph illustrates widely.

SITTING CAPACITY - DIAGNOSTIC CENTRE

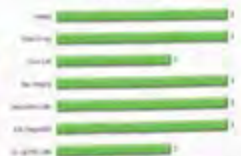

Medicentre tops the list with the highest footfall of around 800 people per day followed by Arth Diagnostic with 600 and Dr. Lal Pathlab with 300 people per day. The footfall at Star Imaging, Sono Lab, Hiran X-Ray and Aravali are between 80 to 150 per day.

High footfall should also get some place to sit in the diagnostic centre. The reason many respondents rated Arth Diagnostic very high because there they have good capacity for people to sit. The chart above illustrates the sitting capacity at different diagnostic centres of Udaipur.

The footfall of the diagnostic centre directly influences the volume of business and in turn the ROI.

૧૯૬૬ માં શ્રી રસુભાઈ કામરે
વિશ્વાસ અને પારદર્શિતાની બંને
અનુભવ પાંચમીની ભાવણી કરી હતી.
શ્રેણી સંસ્થાના વિચારની બે આંખે
બેંક દાખલ થઈ ગઈ હતું છે.
આને પણ બેંક પાંચમી હતું છે.
