About us

MEC India has been offering quality and creative exhibition stand design. Being a professional exhibition design and build company, we ensure to be dedicated in terms of excellent client service to keep long term business relationship. We help brands and companies expose their product across borders and to target audience. It is important to have a good service that helps in getting better exposure throughout the market. From portable exhibition solutions and corporate exhibition stall design to 3D exhibition stall design, we offer a wide range of exhibition design and build service that helps your product get better exposure.

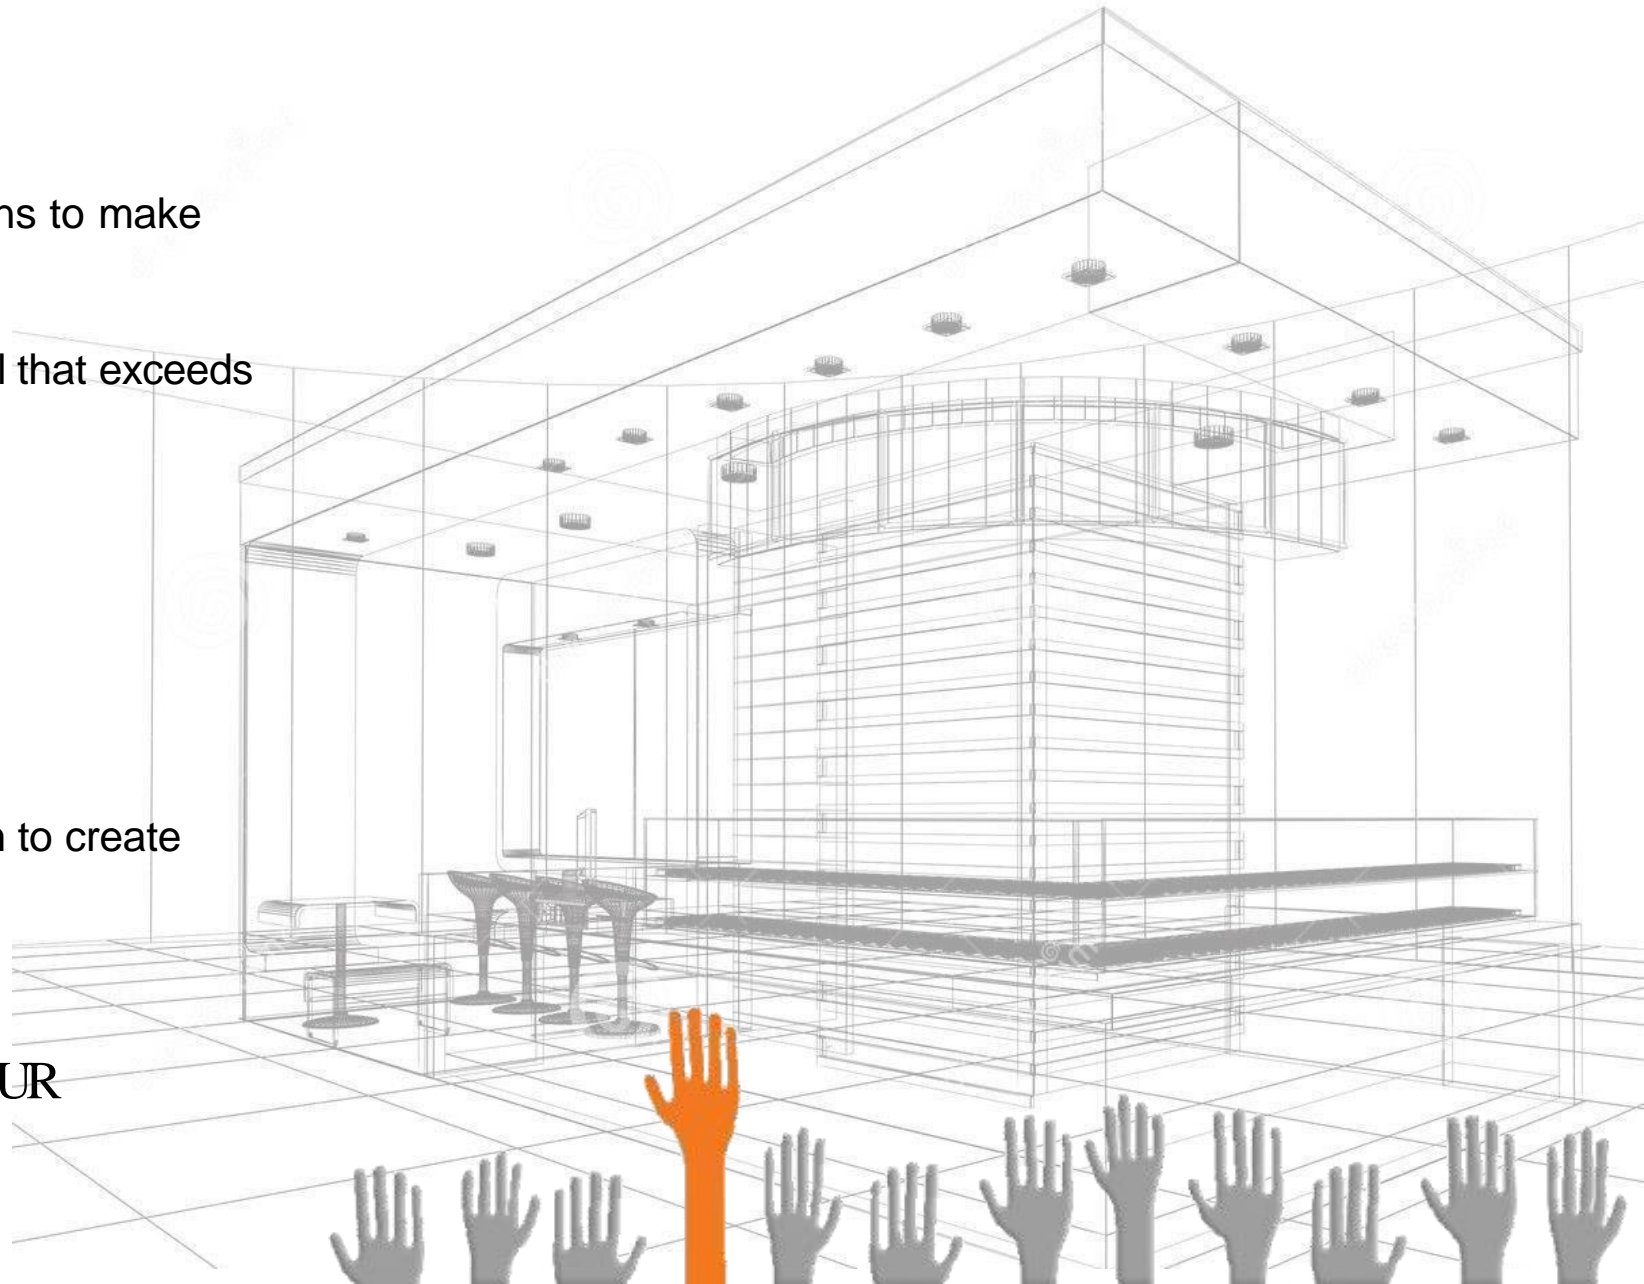

We are not limited to India, but offer exhibition services World Wide, helping clients across the Globe to promote their product to wider audience. Our clients rely on our service, and we ensure that they keep their faith on us, and we offer the best service to them. Our tie-ups with different exhibition center's and hospitality locations help our clients to get discounts and better space for exhibition and seminars.
