WHAT IS TUITION/ COACHING CENTER?

What do you think why your child need, tuition? Now days we commonly narrate growth of tuition system in India with the ever increasing competitions. As the competition is increasing, students do not want leave any stone unturned. Apart from this, seeing other students going for tuition, some pupil go for the same, whether they need this or not. In schools, especially the ones in remote villages, there is a shortage of teachers, thus students are left with no option but to go for tuitions, if their parents can afford it. Be it any need, the tuition system in India is a great set back to the entire education system as well as schooling. Pupils and parents find going for tuition is a very normal part of their curricular activity.

Though it started with upper and middle class, but now private tuition is not only limited to these sections. Students belonging to families that are not doing so well are also seen attending tuition. Students are greatly dependent upon tuitions for studies that even nursery kids go for the same let alone students preparing for competitive exams.

One of the reasons why tuition business in India has gained so much importance is that teachers lack of concern as, they do not teach well at schools. Also such teachers ask their students to get private tuition from them after school hours. But if the teachers cannot make their students understand the subject at school then how come they will make everything clear during tuition? Only because the tuition fee completely belongs to them, so they put extra efforts. Though every teacher is not like this, but majority now belongs to this category. Most of the teachers at schools and colleges are not interested in solving the problems of their students but still there are many teachers who are willing to help students at any time and are against tuitions. They promote self-study and also guide well in school or college classes,. But number of such teachers is diminishing in India

Tuition culture in India now seems inseparable from the normal schools. Hence, education today is not the transmission of knowledge, but has become a very successful trade. While I was in school there were hardly any tuition centres for classes till 10th grade, but now the scenario is different as, on every corner you can see a board hanging on a house for tuition.

Tuition system is predominantly found in India, but not in any other developed country or in country where education is given much importance. Modern version of tuition centre is the coaching centres and some of these are so popular that these even have branches all across India. These so called tuition centres or coaching centres take full advantage of today's competition and quickly make money. Almost all candidates who clear Civil Services exams or other entrance (engineering / medical) exams like this take private tuitions.

By seeing the mushrooming of so called tuition centres, especially run by the college teachers, the government has also passed directions that college teachers teaching at colleges cannot take private tuitions and if they continue to do so it is illegal and harsh steps will be taken against the guilty.

But it is very difficult to uproot this problem in India as we no longer consider tuitions a problem, but part of schooling and education. Also it is widespread and well accepted. One of the major setbacks of tuition system in India is the decline in quality of education at schools as both parents and teachers rely more on tuition studies than school. Also every parent cannot afford this as tuitions are no longer

free and some charge very high rates. So here again the quality depends upon the money you are willing to pay. Poor people are actually seen curbing their basic needs to send their kids for tuitions.

So if we really want to change the whole situation we have to change ourselves. If possible and if you are capable, give time to your kids and help them in studies. Where ever required take the guidance of school teachers. Also laws should be made for tuitions and should be enforced with

So if we really want to change the whole situation we have to change ourselves. If possible and if you are capable, give time to your kids and help them in studies. Where ever required take the guidance of school teachers. Also laws should be made for tuitions and should be enforced with strictness.

I admire the writer as being a teacher I found the points given in the write up completely true. And I think most of the parent totally agree with the above mention point. But on deep analysis, I found that, it's easy to find fault in the current education system but we don't really look into some major issues. Just check the entire education stream and you would find that the most underpaid profession of all time happens to be Teaching. With that said, I am sure you would agree that the world doesn't spare anyone for being incapable of earning livelihood in normal ways. In my opinion Educational Institutions should not be allowed to run unless a standard income is provided and norms are adhered to. Other than that coaching institutions are a different story altogether. Without them I am sure India would see a fall in quality of education anyways. They raise the benchmarks and create a necessity for improvement. You rightly pointed out that India has seen a lot of tuitions and coaching centers but isn't it a fact that it is because of this that we are able to find new talent and raised standard of education. Coming to your concern about availability of such education to economically backward class.. well I am sure if we work out on the first possibility have mentioned we would have nothing to be bothered about. People who belong to family with means are bound to have an edge over other in one way or the other. We cannot fight against that.

On the other hand some society or institute Example, G-10 Tutorial (G10 educational platform) , EHED society and many other try to overcome on this situation by providing quality education at very lowest possible cost. So, that even BPL family background student's also able to get the unsurpassed education. They Eg. (G-10 Tutorial) do so by find-out and appointing qualified self-employed/unemployed youth as a teacher whose teaching experience is more than 10 years, nonetheless not teaching in any school or college and obligate propensity to do something for social welfare.

Thank you

TIMELESS ELEMENTS OF STRONG STUDENT-TEACHER RELATIONSHIPS

1. Consistent Communication

Consistent communication is the most vital element as it serves to create a connection between the two. A teacher who understands the problems of his or her students and then shapes his or her teaching style in order to interact with the student can see success, but this takes not simply observation, but communication. Of course teachers can't understand every problem of every child in their classroom but a general idea, grasped from the trouble point and insight into behavior can go a long way in shaping a good two way communication. The more the teacher communicates well, the higher is the chance of fast and effective learning at the student end.

2. An Emotionally-Safe Learning Space

Creating an open learning environment where different opinions are equally respected and where there is no fear of ridicule from either one's peers or the teacher is crucial for building good student teacher relationship. Student need to feel safe when asking question, safe in the belief that they won't be taunted or criticized and that their question or comment will be answered with patience and respect

3. Mutual Respect, Trust, & Feedback

Mutual respect and trust are at the foundation of any lasting relationship. Student-teacher interaction that is based merely on academic progress or behavior management creates inhibitions within a student and stifles true relationship-building. Those teachers that show respect towards their students and a keenness to help them through their difficulties become the object of respect themselves and trigger a drive among students to learn and make the teachers proud.

Telling students that they have the ability to do well and praising them often with smiles, words of approval, patient conversation, and even celebratory applause will all lead to motivating a student further and accomplishing more.

4. True Equity

Disparity in learning is a barrier to academic performance. Whether you're talking about technology access, access to literature, or related socioeconomic trends, equity matters. This extends to the relationship between those leading learning environments (primarily teachers and administrators) and those being led (primarily students). Creating favorites and focusing on those individuals can create resentment among others who feel marginalized and left out. Focusing equally on all students in class will no doubt lead to a powerful student-teacher relationship for everyone.

I admire the writer as being a teacher. I found the points given in the write-up completely true.

TO WHOM IT MAY CONCERNED

গুৱাহাটী পৌৰ নিগম

Guwahati Municipal Corporation , Guwahati
(License provided under GMC Act 1969 and other by - laws)
(The license is not transferable in respect to name or place)
(This License must be kept in a prominent visible part of the business place)

DISPUR ZONE

S.No: 12236761

Reg.No: GMC/DZ/30/GTL/202122/12166753

Date: 12-11-2022 04:45:00

Subject to the provisions of the GMC Act 1969 and rules, by - laws made there under a license is hereby granted to Smt/Shri **JITEN DEKA** S/O or D/O or W/O **PUTUL DEKA** for business type: **Coaching Centre** Name of the owner/manager/firm/company/ **G10 EDUCATIONAL PLATFORM** Ward No : **30** name of the place: **JAWAHAR NAGAR** for the year upto 31 March 2023

As per the GMC Act & Rules, by - laws, the license is valid upto 31 March 2023, For Assessment ID : .If any of the provisions under the GMC Act is violated, then GMC has the right to discard or abandoned the license any time or place.

License Fee Rs : **8650** In words : (**eight thousand six hundred and fifty Rupees Only**) With Receipt no : **7696**

Subsequently, he moved to Assam and finally in Guwahati after his marriage. Besides this he has wrote three(3) books on Chemistry i.e. Hand book of Chemistry, Mathematics of Chemistry and Supporter Chemistry. Now, he is preparing for PHD.

STRENGTH AND FEATURE OF G10 EDUCATIONAL PLATFORM

i) 14+ years' experience teacher.

Our teacher team is highly qualified about more than 14+ years' teaching experience (Details of the teacher are mention on the another page of this booklet)

ii) 2 Doubt clearing classes in each month:

Doubt clearing class is very much helpful for student, especially before school test and examination.

iii) Small group of only 12 student in each batch

Small batch helps the students to get individual attention by subject teacher during course period.

iv) Individual attention for slow learner

Some students are slow learner I as a MD of G-10 Educational platform personally identified those learners and give individual attestation.

v) Study Material with solved question bank.

Chapter wise study material is periodically provided to all the students by the subject teacher of G-10 Tutorial with all imported topic, questions and answers. More than 95% sure-suit examination solved questions are present in this study Material.

vi) Regular online Test series:

Regular online Test Series is available for IIT-JEE, NEET, and Board.

vii) 24X7 Online Support.

We provide 24X7 Online Support to our student Through Mobile App. (G10 Educational Platform)/ website (web.classplusapp.com)

viii) PowerPoint presentation Digital Classes

Sony 3,1000
lumens WXGA
interactive Ultra
short throw
projector is used for
PowerPoint
presentation.

PowerPoint presentation with necessary colourful image and video is prepared by subject teacher only. This is very helpful for better communication between student and teacher and easy to understand the topic.

ix) Fully AC Class Room,

Students feel pleasant physically in summer this helps them to concentrate in their study

x) CCTV Security

Feeling secure for student as well as parent for his/her child, especially for ladies is very important in all educational institutions

ix) Well furnished

Comfort and Well organized (Gallery System) and seating arrangement for every single student. Since the height of the 2nd row is little higher than that of 1st row, student got clear vision to teacher and projection board.

xi) Laboratory available,

Laboratory available for class VIII, IX and X science/maths and XI and XII, Chemistry, Physics, Math and Biology.

xii) Free practical classes,

Student able to do practical classes according to his/her will, with proper guidance of teacher.

xiii) Library facility available

Our coaching centre has excellent library facilities with course books, reference books, guide books, and magazines. Student able to bring 2 books in a week from G10 Educational Platform library by showing his/her library card to library assistant or teacher.

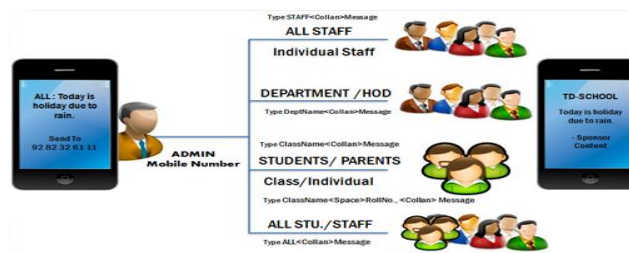

xiv) Waiting room for parent and student.

Waiting room is available for both parent and student with well furnish seating arrangement.

xv) Separated Toilet for boys and girls.

Separate Toilet is attached with waiting room as well as with class room

xvi) SMS alert

SMS alert is sent to register Phone No. and parent Email ID, for any important information, say announcing class test, online test, test result & if student absent in the class.

xvii) Regular monthly Class test.

At least one monthly test and four weekly assignments are compulsory for every student.

Holyday List

- ❖ BohagBihu 1 Class
- ❖ Durga puja 4 class
- ❖ Extra (other occasion) 1 class

Total of 6 class in whole year.

Point to know

- ❖ If any student is not performing well in school examination, then please consult with us.
- ❖ If any student is absent for more than two consecutive classes, parents are requested to notify us.
- ❖ Parents are requested to meet their respective subject teachers at least 4 times in a year.
- ❖ Parents are requested to sign on student progress report after each and every class test.
- ❖ If any student found out consume intoxicating substances in the campus he/she will be expelled immediately.
- ❖ Mobile ought to be in silent mode.

CHARTS & MODEL COMPETITION

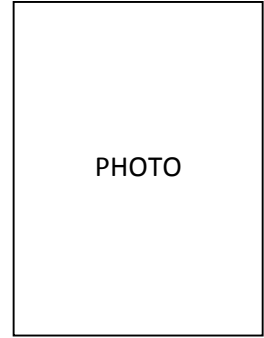

A science Exhibition will be held every year with a Charts & Model Competition among the students of G10 Educational Platform. The best entry will receive an attractive prize.

SEMINARS & POPULAR TALKS ON SCIENCE.

Seminars & popular talks on various topics in science will be organized by the G10 Educational Platform inviting experts.

G10 EDUCATIONAL PLATFORM

Admission form

*Name(in blockletter): [Grid for name entry]

*DOB: [Grid for date of birth] Nationality [Grid] Blood group: [Grid]

*Class: IIT-JEE [Grid], NEET [Grid], IIT/OLYMPIAD FOUNDATION [Grid], Other [Grid]
