

REIMAGINING CONTAINER LOGISTICS

Container Movement

Container Trading

Container Leasing

UNLOCKING VALUE BY OPTIMISING CONTAINER UTILISATION, GLOBALLY.

In a world where

Every 1 out of 3 containers is moving empty

The industry spends \$20 billion on moving empty containers, adding 12% to the shipping line's operating costs

Trade imbalances, relocation time & unreliable commercial forecasts keep adding to operational inefficiencies

Freight transportation contributes to 8% of global greenhouse gas emissions

Around 330 million metric tonnes of carbon footprint are due to empty container repositioning

We, at ARCON, are committed towards building a sustainable tomorrow:

One-Way container solutions using technology to focus on exchanging containers between stakeholders to reduce overall empty repositioning.

Optimising underutilised containers for maximising operational efficiency.

Minimising our carbon footprint by planting a tree for every container we move with our One-Way service.

VISION

Reimagining global container logistics, to become the undisputed leader in container movement & container trading

VALUES

- Trust
- Customer-centricity
- Innovation
- Diversity and inclusiveness
- Integrity and ethics

ABOUT US

Containerisation is an industry that has rapidly evolved since its inception. Constant fluctuations and technological advancements in global supply trade has underscored the need to redefine container solutions.

ARCON is born out of a growing need to use technology and solutions to increase operational efficiency and enhance sustainability while creating an enriching workspace to reimagine the global logistics' landscape.

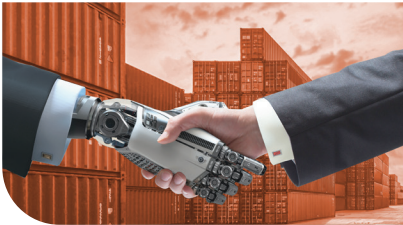

ARCON is part of the Saksham Group of Companies, amongst the largest conglomerates in logistics spanning project logistics, chemical transportation, container trading, custom broking, and IT solutions.

MISSION

Drive Cost and Operational Efficiencies

Assuring flexibility and unlocking value for our customers with the power of choice by aggregating the collective power of container inventory. We will strive to ensure that there is no movement of empty containers, ever.

Phygital Approach

Leveraging the power of technology and people to forge lasting business relationships to redefine business processes.

Sustainable Innovation

We aim to develop innovative business solutions which are sensitive to our environment and society, thus paving the way for a sustainable future.

Enriching Workspace

To provide an entrepreneurial environment which encourages bold thinking and innovation, to facilitate high productivity and to enhance employees' happiness index.

ONE-WAY CONTAINER MOVEMENT

Our unique One-Way container movement empowers you to freely exchange containers, thus lowering logistics' costs and reducing carbon emissions.

At ARCON, we identified this opportunity early on and developed strong infrastructure, deep networks and with the power of technology, have unlocked a new way for our partners to sustainably save significant costs while addressing big pain areas in their operations.
