

JOCKEY[®]
OR NOTHING

MENS
INNERWEAR

[TABLE OF CONTENTS](#)

FABRICS USED IN JOCKEY PRODUCTS

Super Combed Cotton : The process of combing the cotton fabric gets rid of shorter fibres and impurities making it compact, finer and stronger. Combing once makes it 'Combed Cotton' and twice makes it 'Super Combed Cotton'

Cotton Elastane Stretch / Cotton Lycra Stretch : Elastane is a synthetic fibre with exceptional elasticity (stretch). Blending this fibre with cotton makes the fabric stretch and revert to its original form (very similar to a rubber band). This provides the product with grip to hold on to the body while remaining extremely comfortable. Lycra is a brand of Elastane Stretch fabric.

Mercerized Cotton : Mercerization is a process of treating cotton fabric with alkali chemical. This increases the lusture and softness, gives greater strength, and improves the fabric's colour.

Pima Cotton / Supima Cotton : Pima cotton is a premium variant of cotton. When compared to cotton, Pima cotton is much softer on the skin. It is also more absorbent than regular cotton and helps in wicking moisture/sweat. It is also a very durable fabric. Supima is a brand of pima cotton fabric.

Modal / Micro Modal : Modal is a premium cellulosic fibre made out of beech tree. Modal fibre is strong, resilient, and has minimal shrinkage. It keeps colour bright and has silky hand feel. Micro Modal is finer form of Modal.

Tencel : Lyocell is a premium, eco-friendly fabric developed from wood pulp. The fabric is lightweight, moisture absorbent, silky feel and has a natural anti-bacterial properties. Tencel is brand name of Lyocell.

Tactel : is a specialty premium fibre with a very soft feel and brilliant appearance. It is stronger/tougher than most fabrics and has natural properties of breathability and quick dry.

JOCKEY TRADEMARK TECHNOLOGY ICON

StayFresh[®]
technology

StayFresh treatment with antimicrobial properties to help you stay fresh throughout the day

StayDry[®]
technology

StayDry treatment with additional evaporation properties to help you stay dry throughout the day
