About Us

The Indian economic liberalisation that initiated in 1991 resulted in an unprecedented pace of growth and by the mid 90s whole industries were being transformed and even created. Logistics was no different as businesses had begun to look for far more from their logistic providers and were willing to pay more for bespoke solutions.

And it is this insight that led to the formation in 1995 of what is today the PACE Group of Companies. Today, over two decades later, the PACE group is amongst India's most preferred Express Logistics service partners, known for its robust network, long-standing partnerships, and delighted clients.

This is due to our transparent business policies, core values that determine our every action, endeavour to commit only what we can deliver and deliver beyond expectations, benchmarking to international standards, a dedicated & skilled team, knowledge of the proper procedures, ability to create innovative solutions, and most importantly our passion for this space.

After all, Delivering is in our DNA!

Our customers' success stories speak a thousand posts

cello*

Export to Europe is every company's dream, but which comes with stringent norms, since the slightest deviations can create nightmares.

Cello International had an entire shipment rejected by the importer as the lids were not as per specs and they had just 2 days to make good, else they would have lost the entire order. We stepped in, stepped up the pace, and within 48 hours delivered a new consignment to the client's doorstep.

Now, this is not a scenario we would wish upon anyone, but it never hurts to keep our numbers handy.

UNIMAX

Courier to a postal address, even a PO box is easy, but to a temporary stall at an exhibition, in another country?

Simultaneous and ongoing coordination with organizers, security, on-ground logistics, and of course the client. And all this within 48 hours. That's the kind of solutions we love to deliver, and that's what we did for Unimax Stationery last year.

Their participation in the School & Office Expo in Nairobi (Kenya) was a tremendous success and we can proudly state that our contribution might have been small but it was critically significant.

LEADERSHIP THAT'S ALWAYS IN-SERVICE TO YOU

Chris Gracias:

Founder Chairman & Managing Director

With 25+ years of experience in the logistics industry, Chris has the insights and the expertise to create solutions where none appear to exist. And he's driven to ensure that our client's products reach, where they are meant to, within time, every time, and in the same condition in which they were packed. He truly epitomizes the essence of PACE: delivering is our DNA.

Syed Mohammed Suhail:

Clientele & Operations Director

Over 18 years of experience in international corporate business has taught Syed the power of precise planning, robust systems, and impeccable execution. He is always on a crusade to ensure that our staff is well trained and impeccably equipped to precisely and efficiently manage your shipments. Disciplined, professional, but which is matched by a quick wit, he is why we can always match your pace.
