

GREENLANDS[®]

Creating a Greener World since 1940

THE LEGACY

**SHRI P.M. GAIWALA, THE FOUNDER,
PLANTED THE SEEDS OF GREENLANDS
WAY BACK IN 1940.**

Holding a Masters degree in Agriculture. He was a consultant with the Government of Shillong in the late 1930's.

In the year 1940, he started his own firm by the name of "Horticultural Services Centre" & use to consult factories & industries across India for all their Horticulture & Landscape requirements. In those times there were very few options in the Green concept of Horticulture & we feel proud GREENLANDS was one of them.

In the early 1970's his son, Mr. Sanjiv Gaiwala, continued the legacy of the Green business for construction companies, big mills, institutions & HNI's in & around Mumbai. He developed most of the JVPD scheme bungalows. He worked on the grass root level & self supervised to give the desired results. His 1st Celebrity client was Mr.

Amitabh Bachchan, who was personally involved with Mr. Sanjiv Gaiwala to beautify his bungalow in Juhu, Mumbai.

The core value of GreenLands is to serve our clients well. We undertake projects on turnkey basis, and meet project schedule and budget parameters. We greet each project with enthusiasm, our success is built upon lasting client relationship. GreenLands strives to serve all area landscaping needs through dedicated, professional services and a guarantee of client satisfaction.

In order to cater to the growing retail demand & taking gardens to the space deprived homes in Metros. We started our Retail venture in the year 2009, specialising in high quality Indoor Natural Plants & Home Gardening Accessories.

To forget how
to dig the earth
and tend the soil
is to forget
ourselves

• MAHATMA GANDHI

MISSION VISION

GreenLands' mission is to create a greener world and carry on the legacy that we have created since 1940, setting the trend in Landscaping & Horticulture, Vertical Gardens, Green Gifting and Garden Decor related services in India. We seek to achieve this by inculcating a sense of responsibility in one and all towards mother nature & contribute our bit against Global Warming!

Converting a 5000+ sq.ft. age-old nursery into a limited space of 150+ sq.ft., a one-stop shop for greenery in a mall with reasonable cost is one of our biggest challenges achieved. We aim to open 100+ green stores and create green entrepreneurs across India by appointing nature lovers as GreenLands franchisees with a easy & profitable franchisee model of low investment - high profit mechanism.

We passionately look for all green opportunities to make a positive contribution to the global environment by bringing people close to nature.

MITTESH GAIWALA

The 3rd generation in the family, an Entrepreneur and Creative Head at GreenLands, Nature has been always close to his heart as it runs in the family. From an early age of 15-years, he used to spend most of his school holidays working with team of gardeners in nurseries and at sites practically gaining knowledge under the able guidance of his father and mentor.

Mr. Sanjay Parashchandas Gaiwala

A graduate in Commerce and Economics, but his passion for Green always made him think out of the box. Concerned about the concrete jungles in Mumbai and the depleting natural resources he always wanted to do something related to nature, with a dream of planting trees and putting a plant in every hand.

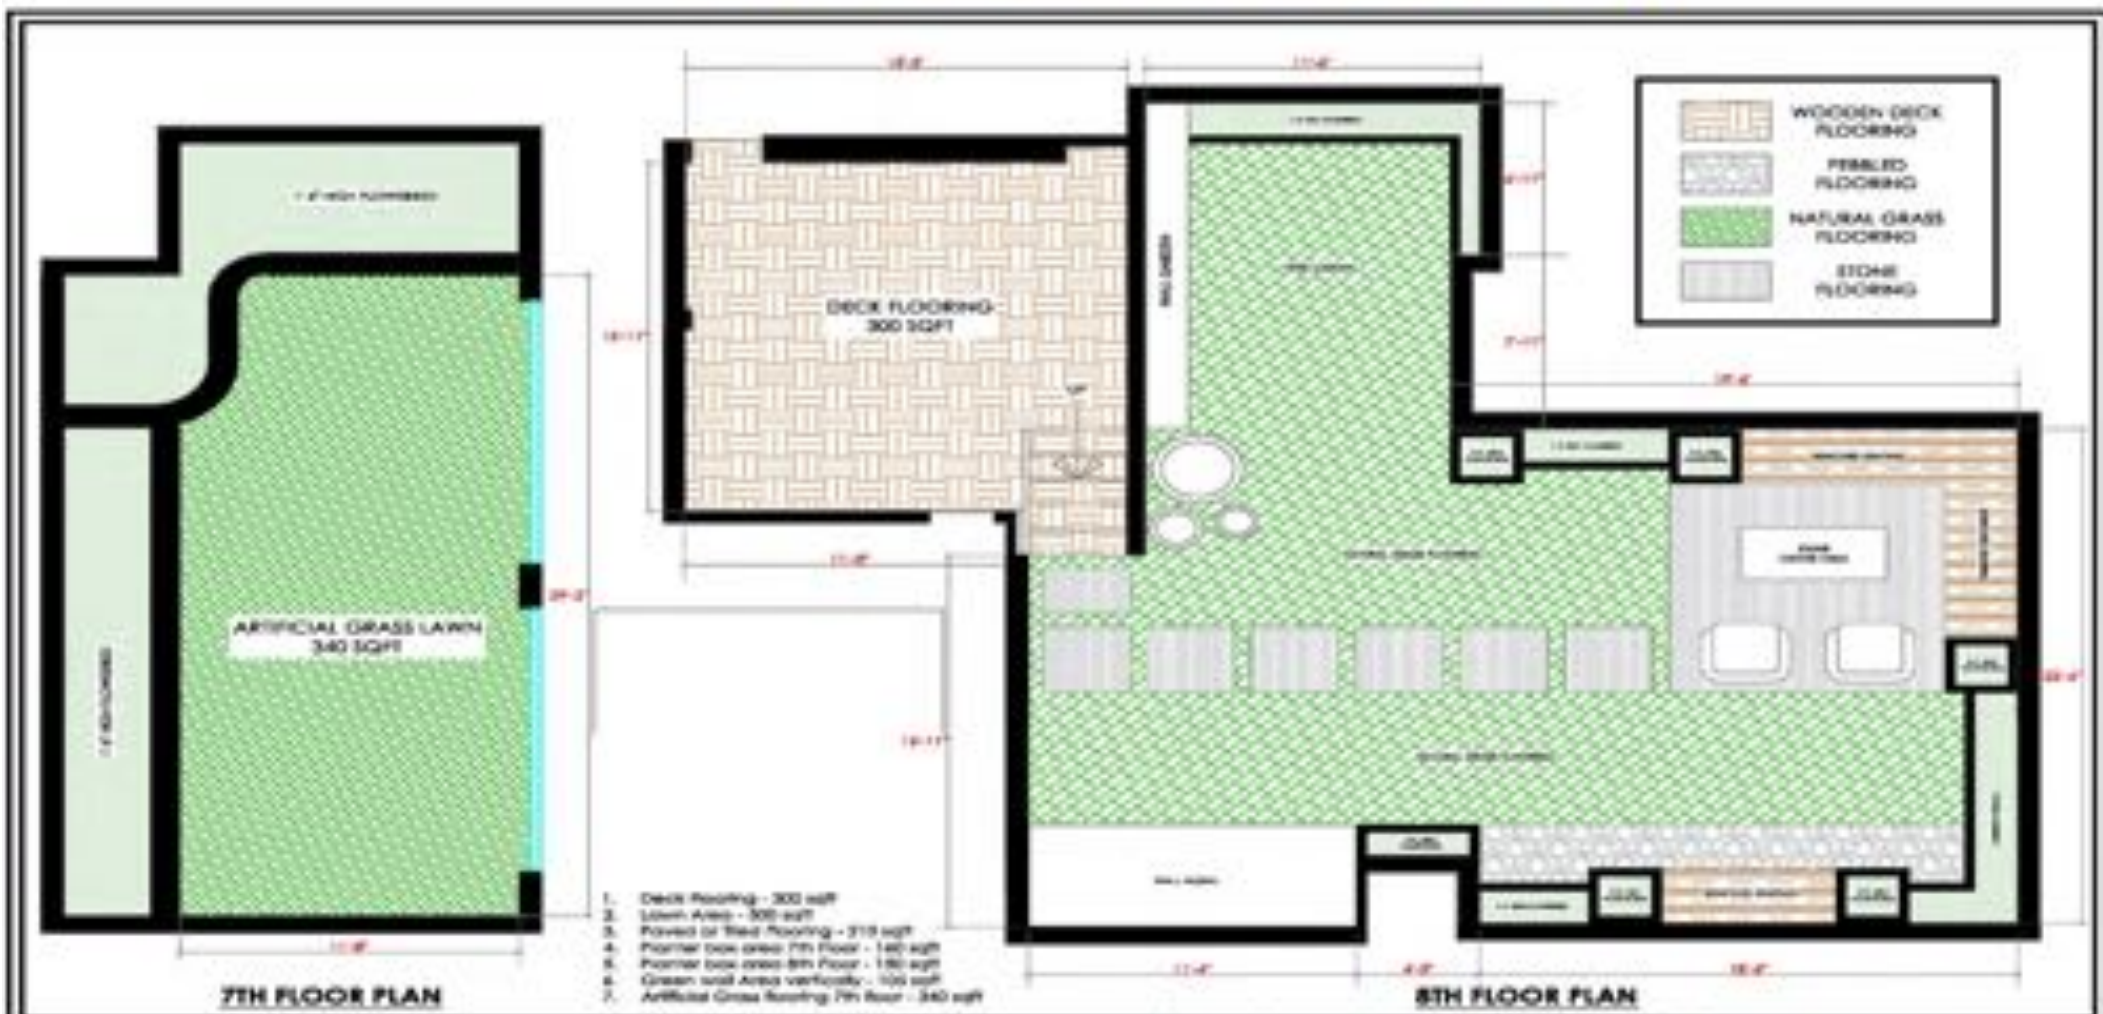

Today with a chain of retail stores across major cities in India, a vast business network with top corporate clients of the country and with an impact on offline and online presence GreenLands has set a new trend in Green Gifting, Home Garden Décor, Landscaping and Horticulture Related Services. The happy faces of his plant loving clients gave him the courage and confidence to raise the bar around the green retail concept in Malls and Hypermarkets.

He has won several accolades, many magazines and print media have interviewed him for his contribution and green retail concept. GreenLands is awarded "MOST ADMFED KIOSK" from the BEST Mall in Mumbai.

Services

LANDSCAPE LAYOUT PLAN

3D DESIGNING

LANDSCAPE DEVELOPMENT

Once the design is approved, our team starts with the hardscape, water features or any civil work required at site. Softscape development is the last thing to complete the project.

PLANTS ON HIRE

Well maintained office plants offer multiple benefits to the people who work around them. These include people feeling healthier (physically and spiritually), breathing clean air with less toxins and offering a more aesthetically pleasing workplace.
