Why Internship

Internships are educational and career development opportunities, providing practical experience in a field or discipline. They are structured, short-term, supervised placements often focused around particular tasks or projects with defined timescales. The internship has to be meaningful and mutually beneficial to the intern and the organization. It is important that the objectives and the activities of the internship program are clearly defined and understood.

Following are the intended objectives of internship training:

- Will expose Technical students to the industrial environment, which cannot be simulated in the classroom and hence creating competent professionals for the industry .
- Provide possible opportunities to learn, understand and sharpen the real time technical / managerial skills required at the job .
- Exposure to the current technological developments relevant to the subject area of training .
- Experience gained from the 'Industrial Internship' in classroom will be used in classroom discussions .
- Create conditions conducive to quest for knowledge and its applicability on the job.
- Learn to apply the Technical knowledge in real industrial situations.
- Gain experience in writing Technical reports/projects.
- Expose students to the engineer's responsibilities and ethics.
- Evision Trained Fresher's Are Equivalent to 1 -2 Years of IT Experience Engineer.
- Promote academic, professional and/or personal development.
- Expose the students to future employers.
- Understand the social, economic and administrative considerations that influence the working environment of industrial organizations.
- Understand the psychology of the Trainee and their habits, attitudes and approach to their Overall development.

Question 4 : **What Are the Eligibility Criteria to Qualify JOB in Core IT MNC?**

Answer : The eligibility criteria to qualify for a job in core IT MNCs can vary depending on the specific requirements of each company. However, some general criteria that are often considered by IT MNCs during the recruitment process:

Technical Skills: Strong technical skills in areas such as programming languages, networking, cloud computing, or any other specific technology or domain that the company specializes in.

Experience: While some companies offer entry-level positions for fresh graduates, many IT MNCs prefer candidates with prior work experience. The required experience can vary from company to company, but typically ranges from 2 to 5 years or more, depending on the role.

Communication and Soft Skills: Effective communication, both written and verbal, is highly valued in IT MNCs. Strong problem-solving abilities, teamwork, leadership skills, adaptability, and a willingness to learn and keep up with industry trends are also important.

Industry Knowledge: Having a good understanding of the IT industry, market trends, and the specific domain or technology area the company operates in can be beneficial.

Certifications: Certain certifications specific to the IT field, such as Cisco Certified Network Administrator (CCNA), Microsoft Certified System Administrator (MCSA), or Cyber Ethical Hacker (CEH), can enhance your chances of qualifying for a job in IT MNCs.

Question 24 : **How Taking Online Classes is Beneficial?**

Answer : **a) Lower Total Costing:**

- Training & Placement Fees very Low.
- No Accommodation Costing to Relocate in Other Town
- No Transporting Cost for Daily Classes.

b) More interaction and greater ability to concentrate:

- Students in traditional classrooms may not get the personalized attention although class sizes are small. In Online Live Session because of Low Strength Every Trainee Get Full Attention to Clear doubts and confusion. This increases the chances of a student performing well due to the time their Instructors give them. This also enhances their problem-solving and communication skills, as well as knowing how to defend their arguments to superiors if needed.

c) Improve your technical skills:

- In Online Session Trainee Do access LAB remotely as well on aloud. This help to Improve Your Skill set and Overall performance.

Note : *Max. two weeks leave allowance provided to trainee while doing internship. Even after that, Trainee takes leave, they have to re-registered & have to pay again the registraion fees on company website.*

 My experience at Evison is totally amazing. I'm Akhil T, basically from Kerala. I learn all the technical skills I have now by here only... Evison trained me from scratch to advance... Today I am happy to announce that I joined a Microland with 1 LPA only because of Evison as I am a Mechanical student it's difficult for me to enter in IT sector but Evison make it easy for me... Thank you Evison for this wonderful opportunity.
