ABOUT US

Cornelia Wolfrum

For more than 30 years always working in the nail business, she sees herself as a representative of all nail designers who make their living with this profession.

It is most important for her to always be up to date, to know her products well and to be able to work with those professionally.

Thanks to her experience as a representative of nameable companies for many years, she noticed over and over again how one-sided most product lines were. Never all needs could have been satisfied. Together with other trainers and educators, she gave thought about that, did a lot of test and resultant developed a gel as well as an acrylic line.

Now Nail Artists is a well-known exclusive brand for nail modelling equipment and nail art. Nail Artists has made a name for itself - working throughout all of Europe for many years, as well as in India - Cornelia and all her business associates are doing an amazing job to meet the needs of every nail designer.

TRAININGS

passing on our knowledge

Betimes, I felt the need to impart my knowledge and my competence in order to disburden my colleagues. Hence I started the Nail Academy in 1999 with trainings all over Germany. I love to teach and to see the improvements and how good nail designers can work when they are properly shown how to use their skills.

The direct contact with nail designers, working close with them, discovering how to improve their techniques - the face-to-face exchange with people is my true passion!
